PLE OF MOBILE EAR SECOND STORM

ictions of Approach of Hurricane Causes Fear.

RAIN FALLS IN TORRENTS

uge Adds to Suffering—There Is Much Need For Clothing as For ood—Relief Work Is Being Systematized.

Mobile, Ala., Oct. 3.—Haunted by e recollection of the great storm hich has just passed, sustaining further injury and increased financial oss from a heavy rainfall Monday, nd fearful of what Tuesday may ring, the residents of the city of Mobile had a most uncomfortable 12 hours, and retired for the night filled with foreboding.

Many residents of the place were, at times, in a state of semi-panic over the dispatches from Washington, which directed that storm warnings be displayed along the Florida coast. There was a slight grain of comfort in the earlier messages, as they did not mention Mobile among the places likely to be visited by the storm now coming up through the Gulf of Mexico. Late in the day, however, the name of Mobile was added to the list of places in the path of a possible tornado and Mobile's cup, which had been full of misery all day, commenced to drip over the edges.

It is a fact, well known to every inhabitant of the city, that a second violent wind coming so closely after that of Wednesday, even though it does not reach the proportions of the recent hurricane, must cause greatly increased injury to the buildings of the city, and possibly some loss of life. Many structures were weakened by the blow of Wednesday so badly that they will not be able to withstand a second attack of even less vigor, and must surely collapse.

During the early evening the barometer here registered 29.63 and had been almost stationary during the greater part of the day. The office of the weather bureau was overwhelmed by anxious visitors, who called by the hundreds to learn of the probabilities of another storm. Local Observer Ashenberger was able to give only slight information, and announced a low condition of his barometer, which was poor consolation for his visitors.

The business houses of the city on Monday sustained almost as much financial loss from a heavy rainstorm, which set in shortly after midnight and lasted about 12 hours, as from the recent disaster. There is scarcely a building in the business section of the city which has a roof capable of keeping out the rain.

At 8 a. m. Tuesday the barometer had commenced to rise slightly for the first time in 36 hours, and it was evident that no immediate danger was at hand.

Local Forecaster Ashenberger, however, declined to grow too optimistic, and warned all merchants who applied to him for advice that it would be just as well if they allowed the bulk of their goods to remain some time longer on the upper floors.

"Nothing can be told about this thing yet," he said. "The barometer may go down in a hurry at any time, and then we may get another storm. The great difficulty with us now is that we have no comparative readings from outside points."

Telegraphic facilities are gradually being restored. All of the railroads except the Louisville and Nashville are running on schedule time, the city streets have been cleared of debris, and save for the battered conditions of so many buildings, Mobile is outwardly at least as good as ever. Repairs on buildings are proceeding rapidly, especial attention being given to roofs in order to rid as far as possible a repetition of the damage by Monday's rain.

Relief work for the stricken communities down the bay is now systematized and working admirably. Food, clothing and bedding is being furnished as rapidly as possible, and although there is still much suffering it is not as acute as at first.

There is still need, however, for all the supplies that can be sent in from outside points.

Busy at Rescue Work.

Pensacola, Fla., Oct. 3.—After a restless night Pensacolans awoke on Tuesday morning to renew the work of rescue and rebuilding, and the latter is being pushed vigorously, with assurance from all of the large firms destroyed that their plants will be restored and on a more extensive scale. Realizing the condition of the city, Governor Napoleon B. Broward of Florida Tuesday wired to Mayor Charles H. Bliss extending through him the sympathy of the people of the state to those in Pensacola over the devastation and wreck wrought by the hurricane, and in his telegram the governor stated that if the citizens desired that he would immediately issue a proclamation calling upon the people of the state and the outside world for assistance. As yet the offer has not been accepted, the city believing it can pull through without assistance from the outside.

The chamber of commerce and city officials have jointly formed a relief committee and have raised thousands of dollars for the care of the worthy. In addition the citizens have donated food and clothing and the poor of the city are being well cared for under the circumstances.

Probably at no time since the hurricane have the people been given such a fright as Tuesday morning, when official news came from Washington of the appearance of another disturbance off Cuba and near the point where the one which wrought death and destruction to Pensacola was first located.

Special weather bulletins were posted advising vessels not to venture out in the gulf, but in this port there were none to leave except a few steamers in the middle of the harbor which are loading.

The list has not grown any Tuesday morning, no bodies being discovered, but there is a terrible stench arising from the mile or more debris along the water front just west of the city. Along that route the water front was the most thickly populated, and the fishermen's cottages were within a short distance of the water. The houses were cleared away as if by one stroke, and it is believed that in the piles of debris will be found many bodies of unfortunates who were caught like rats in a trap and drowned. The full list of the dead will not be done until the thousands of pieces of timber and wrecks of vessels along the beach are removed, and then there will be many to go down to their watery graves unnumbered, as many vessels have been wrecked upon the beach and sunk in the harbor and men drowned whose names will never be known.

Rear Admiral Capps, chief of the bureau of construction and repair, who came from Washington immediately after he learned that five war vessels had been wrecked at the navy-yard and a total damage done exceeding $1,000,000, is there supervising the work of raising the wreck and making temporary repairs.

Many of the fine new buildings, some of which have not even been completed have been damaged to a great extent; in fact, outside of the city the navy-yard and Warrington resident section have suffered more than any other vicinity. No move has been made by the army to rehabilitate the deserted forts across the bay. Fort McRae has been swept almost off the earth, with its new and modern batteries and disappearing guns, and it was here that five were drowned and five others underwent such a harrowing experience that they are now chained in the army hospital raving maniacs.

Fort Pickens has been greatly damaged, but not to the extent of Fort McRae, and although many of the buildings there have been wrecked, the army has found sufficient room for enough men to man the batteries. Captain Broadbent, in command of the life saving station, of which there is not even a board left, has received advices to care for the life saving crew in the city until Superintendent Hutchins can reach here, when temporary quarters will probably be arranged on Santa Rosa Island for the men.

Here in the city hundreds of men are at work and working with a vim and vigor that can only be mastered in such a crisis as the present.

Every damaged dock vessel track wire and building is being repaired, and to put back what the hurricane of Thursday morning carried away will require an army of workmen and there is almost an army employed at the various points.

It is predicted that from the wreck of the city of today there will arise a city far more beautiful, and that the storm will be the cause of an era of prosperity seldom witnessed in Florida at this season of the year.

All classes of workmen will be employed and business will consequently be brisk.

EX-PRESIDENT PALMA LEAVES CUBAN PALACE

Departure Witnessed by Small Crowd.

THERE WAS NO DEMONSTRATION

Navy Department Has No Confirmation of Rumor of Battleship Texas Being Disabled—Rebels Reported to Be Seizing Horses.

Havana, Oct. 3.—Ex-President Palma left the palace at 9 o'clock Tuesday morning. He bade farewell in his apartments to many friends, including Generals Montalvo and Rodriguez and then descended the grand stair case, and accompanied by his family, entered a closed carriage and was driven to the ferry to Regla, where he took a train for Matanzas. His departure was witnessed by a small crowd, but there was no demonstration.

Report Not Confirmed.

Washington, Oct. 3.—The navy department has no confirmation of the rumor that the battleship Texas is disabled off the capes, and believes that the vessel is now on her way to Cuba. As soon as the Texas and the Prairie arrive at Havana, the big battleships Kentucky and Indiana will be relieved and ordered north to complete their target practice. They are not needed as warships in Cuba, merely serving as boarding houses for the marines and sailors.

Shafter On Cuban Affairs.

San Francisco, Oct. 3.—Major General Shafter, U. S. A., retired, who commanded the military operations in Cuba in 1898, said in an interview that he did not think the army of occupation would have much to do in the island.

"A hundred American soldiers would be sufficient to seize and hold Cuba at the present time," said the general. "There are, however, some very wily natives among the contending Cuban forces, and they may be expected to hold out and be an uncertain quantity until assured that the American occupation is an occupation in fact."

Rebels Are Seizing Horses.

Havana, Oct. 3.—It is reported here from Guantanamo that 600 armed rebels collected near that town are seizing horses, cattle and provinces. Governor Taft and the Cuban authorities regard the report as exaggerated.

Troops Will Sail From Tampa.

Tampa, Fla., Oct. 3.—Infantry, artillery and horses due here Wednesday morning enroute to Cuba, steamship Andes, sailed from Havana Monday morning direct to Tampa to take troops. Efforts are being made to get a permit from the surgeon general to allow the Andes to pass quarantines without detention. Other boats are ordered here to assist the Andes in moving the troops as soon as boats can be located and secured.

Will Guard Cuban Railroad.

Washington, Oct. 3.—Captain Couden, the senior naval officer at Havana, reported to the navy department Tuesday that acting under instructions of Secretary Taft, he had ordered the warship Kentucky to Matanzas from Havana, and the Newark to Neuvitas to guard the railroad there.

W. & A. ROUNDHOUSE BURNED.

About $100,000 In Damage Done to Railroad Property In Atlanta.

Atlanta, Oct. 3.—While 1,000 or 1,500 spectators stood in a drenching rain, the historic old Western and Atlantic roundhouse and work shops, situated about 100 yards west of the Forsyth street bridge, were destroyed by fire Monday night, shortly after 9 o'clock.

The loss will approximate something less than $100,000 and the railroad is without insurance.

Major J. L. McCullom, superintendent of the Western and Atlantic, has furnished the following estimate of the damage: Fifteen engines damaged to the extent of about $2,000 each, total $30,000; estimate damage to machinery $20,000; buildings, including roundhouse, machine shops, etc., damaged in the neighborhood of $15,000.

The question of rebuilding at once upon the present site will be decided Tuesday by officials of the road. It is supposed that the blaze was caused by a spark from a passing engine igniting a pile of shavings in the wood shop.

Major McCullom stated Tuesday morning that the traffic of the road, both freight and passenger, would not be interfered with in the least, as a result of the conflagration.

"We have plenty of engines in Chattanooga to handle all business," said he. "All that are needed are being rushed to Atlanta. Every car will be moved and the outside public will never know that there has been a fire, as far as the service of the road is concerned."

Major McCullom stated that it would be impossible to give a definite idea of the damage sustained, but said that the total loss would be less than $100,000.

Georgian Commits Suicide.

Jackson, Ga., Oct. 3.—O. S. Carmichael, the 23-year-old son of David N. Carmichael, a prominent and wealthy farmer of Butts county, is reported to have shot himself to death on the streets of Stockton, Cal., on the night of Sept. 28. It was first reported that A. J. G. Carmichael was dead in Stockton, Cal., but the family of the dead man have received information that it was O. S. Carmichael, he being identified by J. W. Lummus, who served with him in the Spanish-American war, and who is now in California. Mr. Carmichael comes from one of Butts county's most prominent families, but for several years he has been out west. The sad news has caused a gloom on his friends here.

No More Bleaching For Sugar.

New York, Oct. 3.—Unless the United States pure food commission changes its mind, the people of the United States will soon be using granulated and other sugars that have a distinctly yellowish tinge. The commission has decreed that no mineral blueing substance be used in bleaching sugars. Sugar chemists say they use 4 pounds of a mineral blueing substance to every 1,000,000 pounds of sugagr for bleaching purposes. The chemists say the use of the bleacher is not adulteration; that it is mere purification by a thoroughly healthful process. The pure food commission cannot see it in that light, and insists that the whitening process be abandoned.

Meat Inspectors Assume Duties.

Chicago, Oct. 3.—Three hundred inspectors entered upon their duties at the Chicago packing houses Monday under the new federal law. Judging from the first day's business, the inspection will be thorough and systematic. "If there is anything wrong, it is up to the government," said one packer, with apparent relief. That is the position of all the packers. From statements made by Secretary Wilson, of the agricultural department, the government is willing to assume the responsibility.

Drunken Man Wounds Two.

Oklahoma City, Oct. 3.—Crazed from liquor, John F. Noble of Memphis, Tenn., fired six shots into a crowd of men in a saloon here early Tuesday, fatally wounding George Williams, a butcher, and dangerously wounding John Thompson, a painter. Noble was arrested.

BUSINESS MEN TO TAKE A HAND

Macon Merchants to Discuss Strike Situation.

CHAMBER COMMERCE WORRIED

Anxious For Some Agreement Between Street Car Company and the Strikers, So as Not to Interfere With the Fair.

Macon, Ga., Oct. 3.—A committee of Macon ministers, composed of Dr. J. L. White, Rev. T. D. Ellis, Rev. Harry Weiss, and Rev. Bohler Walker, appointed by Mayor Smith, conferred all day with the hope of settling the differences between the street car strikers and the company and Monday night, at 6 o'clock, they reported that they had failed to get a hearing in any plan of adjustment. They asked that a committee of five disinterested persons be allowed to make terms, but this idea was turned down by the directors.

A full report of the situation was made to a special meeting of council Monday night by Mayor Smith, and the matter was freely discussed.

Resolutions, drawn by Alderman Hart, assured the people of Georgia that they would find a hearty welcome to the fair, and protection, so important on such an occasion.

With the adoption of this measure an invitation was extended the people of the state to come to Macon, feeling that order would prevail. Judge Hodges of the city court, announced that the militia would protect all property of the company outside the city and guaranteed protection to passengers. Mayor Smith also gave assurance of protection within the city limits.

The street car men are as full determined, and their course Monday has added strong sympathy.

The merchants have planned for a meeting in which they are to advise a determined boycott against the company should its directors push through the fair without agreeing to some terms to dispose of the differences.

The chamber of commerce members also find themselves badly worried about the situation, and their support will go to the strikers in their effort to run an effective boycott, if they are forced into the fair without consideration.

Only one case of disorder was reported Monday. Henry Cox, an East Macon citizen, assailed E. F. Stroud, a conductor, for an alleged statement by the conductor, at the offices of the company, that Cox was planning trouble. Cox was arrested, but later released on bond. No militia has been needed.

Cars in charge of new men knocked down the trolley wire at the junction of College and Oglethorpe streets and killed a hack horse and badly injured John Jones, driver, on No. 48 hack. When the trolley struck the switch by some means, it was let loose, and created considerable excitement. Several parties had narrow escapes from being struck by the live wire. As the cars went in immediately after the accident.

With a great horse show and auto parade Tuesday at noon, Macon's Centennial fair was thrown open to the people of Georgia. Fair officials have given close attention to completing arrangements for the opening, and as a result they are boasting one of the best fairs ever seen here.

Live stock and farm exhibits placed Monday completed a display of the agricultural interests of the state never surpassed here. The farm implements and machinery display, and the business exhibits, are extensive and reveal a preparation for an immense fair.

Bible Is Not God's Word.

Detroit, Mich., Oct. 3.—Rev. Charles D. Williams of the Episcopal diocese of Michigan, in an address to the Young Men's Christian Association members here today declared that the Bible is not the word of God and that the teachings in the Bible are the mere product of the human mind and the result of human reasoning.

LARGE PARASITES BEING REMOVED

Cooper's Medicine Has Brought New Disease to Light.

MANY PEOPLE FRIGHTENED

Young Man Explains the Causes of Trouble—Says Hideous Creatures Are Taken Into System Through Eating Rare Meat.

St. Louis, Oct. 3—Probably the most unusual feature of the excitement that has been created by L. T. Cooper's visit to this city is the removal of parasites or tapeworms by his preparations.

During the early part of Cooper's stay in St. Louis individuals who were taking his "New Discovery," as it is called, brought either to himself or to physicians throughout the city immense parasites that had left the system after using the medicine.

Many of these people were frightened, and cases of this sort became so numerous that Cooper finally made the following statement for publication:

He said: "In every city I visit these things are brought to me within a few days after my medicine is sold in the city. They are what is known as the tape-worm, and grow to enormous size.

"Few indeed realize how prevalent these creatures are. I think I have been the first to demonstrate what a large factor they are in the poor health of this generation. I believe that fully one-half the chronic stomach trouble that is so universal is caused by these parasites.

"Individuals may have them for years and not be aware of the reason for continued ill-health, but attribute it to many different diseases, when in reality one of these creatures is robbing them of their vitality.

"These parasites are taken into the system in uncooked food or rare meat, in the form of an egg, which hatches almost immediately. People suffering from them experience a feeling of lassitude and are extremely nervous. The action of the "New Discovery" seems to be fatal to these great worms, and in most cases a few doses of the medicine drives the creatures from the system. I will have hundreds of them brought to me before I leave the city."

This grewsome prophecy has been amply verified, for not only hundreds but thousands of St. Louis people have been relieved of one of these fearful parasites since taking Cooper's preparations, and the entire city has been aroused by the fact.

Some of the parasites are of such enormous size as to startle the imagination. The statement of Father John Baptist Arnolis, one of the best known and best beloved priests in this section of the country, verifies this. His statement, among others given to a reporter, was as follows:

"For years I suffered from what I thought was a general run-down condition of the system caused by stomach trouble. I felt extremely tired all the time, and it was a great effort to attend to my duties. I would wake up in the morning feeling as worn-out as when I went to bed. If I stood for any length of time I would have a pain in the lower part of my back, and would have to sit down.

"I was very nervous and depressed in spirits, and was troubled with dizzy spells. I would see spots before my eyes when I stooped over and raised up quickly. I had a very irregular appetite, and would have palpitation of the heart after ascending the stairs.

"The talk about Mr. Cooper's preparations was so universal that I decided to try some, although I do not take patent medicines as a rule. I took four doses of the "New Discovery" as it is called, and a tape-worm about ninety feet in length left my system.

"I am very thankful for this great relief, and I now know what has been the cause of all my sufferings."

This story of Father Arnolis is a fair example of the experience of an astonishing number of St. Louis people, and Cooper's preparations are selling here in immense quantities. It is now estimated that he has sold one hundred thousand bottles to date in this city alone, and the sale is still increasing.

ADJOURNED MEETING COUNCIL

Met Tuesday Night and Wednesday, But Little Business Transacted.

In compliance with adjournment of Monday night, the municipal legislature convened on Tuesday evening, but there was little business of importance transacted.

The tax books of the city were accepted from Tax Assessor Bradford.

The question of the undesirable position of the pound was discussed, which resulted in the passage of a resolution requesting the mayor to have same removed to East Masonic street, at a point just north of the county jail. This resolution also carried with it a suggestion of the necessity of a pound in the western section of the city—and those who have walked on West Liberty street over the beautiful granolithic sidewalks, recently constructed, will concur in this suggestion, if the ordinance prohibiting the running at large of cattle is to be enforced.

The session of the council Wednesday afternoon was devoted to the approval and payment of bills.

P. B. SARTORIS IN TROUBLE.

Arrested Upon Warrant Alleging the Issuing of a Worthless Check.

Just as he was stepping from the train at Fairbanks yesterday, P. B. Satoris, a white man employed by John P. Lynch in the capacity of foreman of the logging department of the big Lynch mill, was arrested by Deputy Sheriff I. C. Walker upon a charge of giving a worthless check.

It is said that Satoris issued a check on the First National Bank of this city to one B. F. Wilson of Orange county, and that the same was turned down with the endorsement of "no funds." Mr. Wilson, or some other authority, caused the warrant to be issued.

Satoris was brought to this city and placed in prison, and will be given a preliminary hearing. Attorney Robt. E. Davis will represent the defendant.

Ladies' Hospital Association.

In pursuance to a call, a meeting of the Ladies' Aid Association to the Gainesville and Alachua County Hospital Association was held at the Odd Fellows' Sanitarium on Tuesday afternoon.

This meeting was well attended, and was full of interest from beginning to end. In the absence of the president, Mrs. Dr. N. D. Phillips, Mrs. Dr. J. F. McKinstry presided, with Mrs. Tom F. McBeath as secretary.

There was a great deal of business of importance discussed relative to the hospital, and it was determined to make a united effort to further assist in the work in co-operation with the regular association. The association has set the first Monday in each month as the date for holding their meetings, and the place of meeting will be at the Sanitarium.

R. D'PASS WRITES INTERESTING LETTER

lls of Gainesville and Its Magnificent People.

HE CITY FOR THE YOUNG

ys the University City a High Compliment, and Brags Upon Her Fine Thoroughfares, Her Churches and Many Other Good Things.

Rev. Dr. James DePass, who recently spent a few days in Gainesville, has written a most interesting letter to the DeSoto County News, which appeared in the current number of that excellent journal, and which The Sun feels sure will be of interest to the people of this section. Following is the letter in part:

"Of our people who went away for rest this summer I believe I am the only exception who toured to the south instead of seeking Northernly haunts. Just as I was ready, that is packed for my week's trip, I received a telegram informing me of the drowning of my only brother, Col. S. D. DePass, of Memphis, Tenn., who was residing the few years past with Dr. Matt. H. DePass, his son, at Archer, Fla. Having served through the Civil war, passing through many conflicts in Virginia, towards its close he was taken a prisoner and released after the war was over. From a Northern prison, to join his family, he had to go near Opelika, Alabama. How he successfully made that trip, without money, sick and sore on the road, seeking shelter here and there, treated with great hospitality by impoverished Confeds and finally reaching home in health, was an experience common to many a Confed. While in passing through North Carolina he was taken very ill at the house of a gentleman, where he had to remain over a week to recuperate. His host learning that he had but a few cents in his pocket, divided his money with him, giving him five dollars, which was half he had. My brother never spent that money but kept it until the day of his death as a momento to one of nature's noblemen.

"Going to his funeral called me further North to go South, and the following Saturday after I left on Wednesday found me in Gainesville, where I remained with the Rev. Dr. T. J. Finn several days, preaching on Sunday to my old charge and seeing and visiting many of my old tried friends of the past.

"Gainesville is not only the foremost inland town in Florida, but, in my judgment, is destined to be always foremost. It is beautifully laid out, has wide streets, magnificent shade trees, waterworks, electric lights, telephone service, and a satisfactory one, and in addition to all these she has the University of the South located there.

"The grounds of the University for altitude, location and character of soil is not or could not be surpassed by any point in the State.

"The buildings, which are in part completed, are up-to-date, and the campus when finished will compare with any university in the South, if not in the United States. The Hon. W. R. Thomas, Mayor of the city and ex-State Senator, a man with large ideas and big plans, and knows how to execute them, is the 'bottom fact' in carrying the University to Gainesville. The efforts he is making to beautify the street leading to the University, called Liberty street, are developing one of the finest rides in the State as well as one of the best promenades; the street is rocked and the sidewalks, which are wide, are both paved with the very best cement and sand rock. Fine oaks will be planted on sides and in a short time perpetual shade will render these walks a delight. While Mayor W. R. Thomas is under in this great movement he backed up by men of large views and ample means, who never fail to respond to every effort which is made to make Gainesville a prosperous and beautiful city.

"Not the least, though mentioned last, are the churches of Gainesville. They are all brick and stone edifices, of best architectural design, elegantly furnished inside and out and supplied with the very best musical instruments. I expect that the pipe organ in the large and elegant Methodist church is as good, if not the best pipe organ of its kind in the State. The churches are supplied with able and faithful preachers and the people fill these churches, sometimes to overflowing, when all of them are open.

"The students who go to the University will find in the people and in the churches those influences and conditions which tend to elevate the principles of the young and furnish them with ideals upon which to build up their characters.

"Gainesville also has the finest high school building in the State and a court house which is a credit to the city and the county; besides it has a Chautauqua, which annually holds successful sessions."

BAIRD

An Old Timer.

Jesse R Emerson, liveryman at Edwards' stables, has now in keeping what might be termed a pioneer in muledom, being no more nor less than "Old Pete," a mule which it is claimed pulled a street car in Gainesville twenty years ago.

It is said that "Old Pete," who was then a mule gay and giddy, was an educated animal. By the number of strokes of the gong by the conductor, he knew what to do and how to do it. For instance, two strokes of the gong meant to stop; three strokes was a signal to go ahead, and when four strokes sounded in rapid succession "Pete" knew that there must be doing in speed—and no whip was needed.

But "Pete" was sharp in other ways. He had gained the faculty of knowing who rode on passes, and whenever a holder of a pass would hail his car he would not only refuse to stop for the passenger, but would get that four-stroke gait on him, and it was indeed a lucky free rider who mounted the car at all if "Pete" happened to see him first.

But the street car is a thing of the past, and the animal passed away into other fields of labor, such as plowing and drafting, pulling log carts, etc. "Pete" is yet in the prime of usefulness, notwithstanding that he has long passed the legal voting age, and he is said to be good for many more years of service. The animal is owned by H. L. Rosenberger of Kirkwood.

One Weatherby, Rog & Richardson double surface planer and matcher complete.

One Yerks and Finase moulder.

Also one hot blast dry kiln, with trucks, complete. L. C. Gracy.

COWS ON THE STREETS.

Policeman Kite Made a Big Haul Tuesday Night, Making Fourteen Arrests.

Night Officer Kite is a progressive officer, and does not relish the idea of sitting around the square and chewing tobacco on a salary, so when there is nothing else doing he makes a habit of going out and chasing the cows to the "cow jail," which is located the first lot east of the big tabernacle of the Florida Winter Bible Conference and the Gainesville Chautauqua.

Officer Kite had nothing else to do on Tuesday night, with the result that he arrested fourteen cows who were violating the ordinance preventing the running of cattle at large, and the owners will be compelled to cough up fifty cents apiece before they can redeem them.

Meeting School Board.

The regular monthly meeting of the Board of Public Instruction of Alachua county was held in this city Tuesday, at which the regular routine of business was carried out. Many of the schools having now opened for the fall term, there was not such a volume of business before the board, in the form of objections and other things.

Makes Homely Women Pretty.

No woman no matter how regular her features may be can be called pretty if her complexion is bad. Orino Laxative Fruit Syrup aids digestion and clears sallow blotched complexions by stimulating the liver and bowels. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Remember the name Orino and refuse to accept any substitute. J. W. McCollum & Co.

The Prim Dutch Girl.

The etiquette of Holland is exceedingly strict in all classes. The young girl is most carefully chaperoned, and she never goes anywhere, even to church, unless accompanied by her parents, some male relative or other equally trusted attendant. At a dance the parents sit round the walls sipping their coffee or wine, and the young men must make the best of their chances in the opportunities afforded by the dance, for when it pleases the guardians to depart there is no help for it, the girls must go too. An unmarried girl always takes the right arm of her escort, while the matron takes the left, perhaps because it is nearer the heart.

An Example.

One of the most intimate friends of M. Dumas fils was a retired naval officer who lived in a distant corner of Normandy. As soon as the author of "Camille" died the officer went over all the letters which he had received from Dumas and destroyed every one which referred to any private affairs of the author. Where letters also contained literary and philosophical discussions he carefully blotted out the personal parts in order that nothing of a personal nature might ever reach a publisher. This is an example not often followed.

A Taste That Age Withers.

According to a member of the candy loving sex, there is no sadder evidence of age in a woman than being able to pass a bonbon shop without being tempted by the wares. "When a woman can do this," she says, "she is frankly middle aged. During your school days chocolates are a recognized necessity of existence. During the early bud period of matinee hero worship they are indispensable to the enjoyment of a performance. When your mouth does not water at the mere idea of a caramel or a marshmallow begin to search for the first gray hair."—New York Press.

The Poppy.

The poppy throughout the east is an emblem of death. In many parts of India this flower is planted upon graves and in cemeteries. Whether or not the idea was suggested by the poisonous character of the juice is uncertain. It is believed that the poppy was known as a funeral plant to the ancient Egyptians, for upon the tombs opened by Belzoni there appeared representations of plants which were evidently intended for poppies.

You May Need It

Wounds, Bruises and Burns.

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and in about one-third the time required by the old treatment. This is the great discovery and triumph of modern surgery. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries causes them to heal very quickly. It also allays the pain and soreness and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering such injuries entail. For sale by all druggists.

Shipwrights On Strike.

New York, Oct. 3.—The threatened strike of shipwrights in the ship yards of New York and vicinity, following demands which were to go into effect Oct. 5, came off Monday, a few days ahead of time. The demands, which were for an increase in wages from $3.50 a day to $4 and the Saturday half holiday, was refused. The employers have opened bureaus for hiring strike breakers in Philadelphia, Boston and New York.

Negro Is Murdered.

Shady Dale, Ga., Oct. 3.—Billy Maddox, a negro, was killed by some unknown party, and his body placed on the railroad tracks near here, and the up-going freight train for Athens tore his body into fragments. The coroner's jury met and their verdict was that the negro came to his death by a gunshot wound in the hands of parties unknown.

A Heavy Load to Carry.

Along with dyspepsia comes nervousness and general ill-health. Why? Because a disordered stomach does not permit the food to be properly digested, and its products assimilated by the system. The blood is charged with poisons which come from this disordered digestion, and in turn the nerves are not fed on good, red blood, and we see symptoms of nervousness, sleeplessness and general breakdown. It is not head work, nor over physical exertion that does it, but poor stomach work. With poor, thin blood the body is not protected against the attack of germs of grip, bronchitis and consumption. Fortify the body at once with Dr. Pierce's Golden Medical Discovery—a rare combination of native medicinal roots without a particle of alcohol or dangerous habit-forming drugs.

A little book of extracts, from prominent medical authorities extolling every ingredient contained in Dr. Pierce's Golden Medical Discovery will be mailed *free* to any address on request by postal card or letter. Address Dr. R. V. Pierce, Buffalo, N. Y.

Many years of active practice convinced Dr. Pierce of the value of many native roots as medicinal agents and he went to great expense, both in time and in money, to perfect his own peculiar processes for rendering them both efficient and safe for tonic, alterative and rebuilding agents.

The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of its ingredients. The publication of the *names of the ingredients* on the wrapper of every bottle sold, gives full assurance of its non-alcoholic character and removes all objection to the use of an unknown or secret remedy. It is not a patent medicine nor a secret one either. This fact puts it *in a class all by itself*, bearing as it does upon every bottle wrapper The Badge of Honesty, in the full list of its ingredients.

The "Golden Medical Discovery" cures, weak stomach, indigestion, or dyspepsia, torpid liver and biliousness, ulceration of stomach and bowles and all catarrhal affections no matter what parts or organs may be affected with it. Dr. Pierce's Pleasant Pellets are the original little liver pills, first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Much imitated but never equaled. Sugar-coated and easy to take as candy. One to three a dose.

Summary of Storm at New Orleans.

New Orleans, Oct. 3.—Forty-four lights either swept into the sea and lost, or the structures so badly damaged that no lights can be shown, and four lighthouse keepers drowned during last week's hurricane, is the summary of the report made by United States Lighthouse Inspector Sears of New Orleans. These lights were located on the coast and adjacent islands between the mouth of the Mississippi river and Mobile. Mr. Sears did not investigate the lighthouse losses between Mobile and Pensacola. He has not yet made public an estimate of the money loss involved.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to, I had better attend to it at once, as I could not possibly live another month, as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." J. W. McCollum & Co.

Georgia Negro In Trouble.

Newport News, Va., Oct. 3.—United States Commissioner A. C. Garrett Monday night held for the federal grand jury Fred Bucks, the prisoner who was brought up on the cruiser Columbia from Cuba. Bucks stabbed A. I. Taylor, a government employee, in Guantanamo last May. Since that time he has been confined on board the monitor Amphitrite. The prisoner and three witnesses, two West Indian negroes, and a government laborer, were taken to Richmond by Deputy Marshal West. Bucks is a Georgia negro.

An Awful Cough Cured.

"Two years ago our little girl had a touch of pneumonia, which left her with an awful cough. She had spells of coughing, just like one with the whooping cough and some thought she would not get well at all. We got a bottle of Chamberlain's Cough Remedy, which acted like a charm. She stopped coughing and got stout and fat," writes Mrs. Ora Bussard, Brubaker, Ill. This remedy is for sale by all druggists.

Counterfeiters' Den In Missouri "Pen."

Jefferson City, Mo., Oct. 3.—Officers of the Missouri penitentiary here assert they are on the track of a counterfeiters' plant supposed to be in operation within the prison walls. Counterfeit quarters have been found in circulation among the convicts.

Torments of Tetter and Eczema Allayed.

The intense itching characteristic of eczema, tetter and like diseases is instantly allayed by applying Chamberlain's Salve, and many severe cases have been permanently cured by its use. For sale by all druggists.

CASES AGAINST BUCKET SHOPS.

Arrests at Birmingham For Violation of the City Ordinance.

Birmingham, Ala., Oct. 3.—The new city ordinance prohibiting "bucket shops" and "wire brokerage concerns" from operating in Birmingham went into effect Monday and three arrests were made for violating the new ordinance, those who were arrested being J. T. Rogers, manager for Foster & Co.; L. A. Wood, manager of the Birmingham Cotton and Stock company, and C. H. Cothran, manager for Ware & Leland. Each gave bond for his appearance in court, when a test case will be made.

The police have notified the brokers that a separate case will be docketed against each violator of the ordinance for each transaction made. A number of concerns closed up last week and will not fight the law which was passed just after the recent defalcation of Paying Teller Chisholm, of the First National bank, who lost $100,000 of the bank's money in bucket shop speculation, as he claimed.

Nothing to Fear.

Mothers need have no hesitancy in continuing to give Chamberlain's Cough Remedy to their little ones, as it contains absolutely nothing injurious. This remedy is not only perfectly safe to give small children, but is a medicine of great worth and merit. It has a world wide reputation for its cures of coughs, colds and croup and can always be relied upon. For sale by all druggists.

Several Bodies Unaccounted For.

Kingfisher, Okla., Oct. 3.—The smoking car of the Rock Island passenger train, which plunged into the Cimarron river at the bridge near Dover on Sept. 18, will be blown up with dynamite by the railroad company. The bodies of several passengers who were on the train at the time of the wreck have never been accounted for.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

NO THIRD TERM.

It would divide and disintegrate the Republican party if President Roosevelt was nominated for a third term, for a majority of that party declared when the Conklin machine tried to nominate General Grant for a third term that to do so was to invite defeat. But laying aside the political results of overriding the unwritten law of the Republic, there is the personal matter of Mr. Roosevelt going back upon his expressed promise to the people not to be a candidate for a third term. It is well to remember just what he gave out to the public on the night of the election in 1904, when he said:

"I am deeply sensible of the honor done me by the American people in thus expressing their confidence in what I have done and have tried to do. I appreciate to the full the solemn responsibility this confidence imposes upon me, and I shall do all that in my power lies not to forfeit it. On the 4th day of March next I shall have served three and one-half years, and this three and one-half years constitutes my first term. The wise custom which limits the President to two terms regards the substance, and not the form, and under no circumstances will I be a candidate for or accept another nomination."

This promise that "under no circumstances" would he be a candidate, was also a promise to the other ambitious men of the Republican party that they could seek the nomination without his being in their way. Cannon, Taft, Fairbanks, Root, Cummins, took the President at his word and are more or less intent and trying to convince the Republican voters that they would make the ideal candidate. It is impossible to believe that the President secretly cherishes the hope of a third term, and it is more impossible to imagine that he would commit such an act of perfidy as to throw his political associates overboard for the sake of his own ambition to accomplish what Washington refused and Grant was denied. A third term is therefore an issue that need not bother us at this time, but it is always well to remember that eternal vigilance on the part of the people is the price of liberty.

The apparently useless buttons on the wrists of men's coats had a curious origin, according to an old tailor. He said that years ago the soldiers were in the habit of wiping their noses on the sleeves of their uniforms. The commander of one corps had buttons put on the front of the wrists to prevent this practice and the buttons which Governor Hoch of Kansas so severely condemns are survivals of this custom. The two buttons on the back of a frock coat were put there originally so that the tails of the coat might be buttoned out of the way in walking or riding. The button-holes were put in the front of the skirt. They have disappeared in the modern coat but the buttons remain.

A million feet or more a day is the rate at which the Columbia river lumber mills are now eating into the Oregon forests. The mills are running day and night and Sundays, and steamers, square riggers and schooners lie ready at the wharves to load every stick of timber as soon as it leaves the saws. Even before the San Francisco disaster the demand for Oregon fir was very heavy, and the mills were turning out all that seemed possible. Since the disaster the demand is still greater. It means present prosperity for Oregon no doubt, but what of the forests and the future particularly in view of the wasteful methods of Oregon lumbering?

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:

Take Hall's Family Pills for constipation.

Young man, do not take up the study of medicine unless you are morally certain that you are fitted for carving out for yourself a brilliant future in that profession. About 12 500 medical graduates are being turned ont by the colleges each year, while there is need of only about 2,500, according to one of our most distinguished practitioners. Better stay at home on the farm, where brain, brawn and energy will always win its own reward. The well-to-do farmer of today is the most independent man on the green footstool.

People who write things they would like to see printed in a newspaper should bear in mind that what they write as a personal opinion should be fathered by them, and when they write stuff that is not fit for them to attach their names to it should not be printed. Remember the rule of all decent newspapers and you will never have occasion to put on the shoe. This is the rule which we give in all kindness. Never ask a newspaper to do anything you are ashamed to do yourself.

A community torn by dissensions, rent asunder by strife and contention—the people ready always to fly at each other's throats on account of rivalry and petty jealousies—can never hope to succeed. The universal brotherhood of man is constantly deferred and the end of time will appear before this great desideratum can be brought about, unless man shall be brought to the realization of this, his dominant weakness. Let him inquire, "Who is my neighbor?"

The Postoffice Department is enforcing the law against placing letters or other written matter in packages of the third and fourth class mail matter, and collecting from violators the penalty of $10. This law has lately been violated with considerable frequency and the postal authorities are determined to put a stop to it.

TO CURE ANY DISEASE.

Section 35. The Legislature may provide for the assessment of benefits derived by lands by reason of such drainage, and the collection thereof; the proceeds therefrom shall be paid to the board of drainage commissioners to be used by them for such drainage purposes.

Approved May 27, 1905.

ARTICLE XXIX.

That Section nine (9) of Article five (5) of the Constitution of the State of Florida be and the same is hereby amended so as to read as follows, viz:

"Section 9. The salary of each Justice of the Supreme Court shall be four thousand ($4,000.00) dollars a year. The salary of each Circuit Judge shall be three thousand five hundred ($3,500.00) dollars a year."

That the foregoing amendment to Section 9 of Article V of the Constitution is hereby agreed to and the same shall be submitted to the electors of the State for approval or rejection at the next general election of re- presentatives as required by Section 1, Article XVII of the Constitution.

Approved May 31st, 1905.

ARTICLE XXX.

That the following amendment to Article V of the Constitution of the State of Florida, relative to the Judiciary Department to be numbered section 39 of said Article V, be and the same is hereby agreed to and shall be submitted to the electors of the State at the general election to be held on the first Tues- day after the first Monday in November, A. D., 1906, for ratification or rejection, to-wit:

Section 39. That annual salary of the Judge of each of the Criminal Courts of Record now, or hereafter to be, established shall be paid quarterly by the county where such court is established, and shall be as follows: In counties of less than fifteen thousand popu- lation, one thousand dollars; in counties of from fifteen thousand population, one thousand dollars; in counties of from fifteen thousand to twenty-five thousand population, fifteen hun- dred dollars; in counties of from twenty-five thousand to thirty-five thousand population, two thousand dollars; and in counties of more than thirty-five thousand population, twenty- five hundred dollars, hereby repealing any and all parts of the said Constitution in conflict herewith.

Approved June 6, 1905.

ARTICLE XXXI.

That the following amendments to Article V of the Constitution of the State of Florida, relative to the Judiciary Department, to be numbered Sections 40, 41, 42, 43, 44, 45, 46, and 47, of said Article V, be and the same are hereby agreed to and shall be submitted to the electors of the State at the general elec- tion to be held on the first Tuesday after the first Monday in November, A. D., 1906, for ratification or rejection, to-wit:

Section 40. There shall be established in the county of Escambia, whenever the voters of said county shall so determine by a majori- ty of the votes cast, on the question at any general election, a court of record and there shall be a judge of said court who shall be appointed by the Governor and confirmed by the Senate, who shall hold his office for six years and whose salary shall be two thousand, five hundred dollars a year, payable quarterly by the county of Escambia. The criminal court of record now established in Escambia county shall, upon the adoption of these amend- ments, become and be the court of record as herein provided and all officers of such criminal court of record shall be officers of such court of record and discharge the duties and re- ceive the emoluments of such until the ex- piration of their present term of office.

Section 41. The said court and Judge shall have exclusive original jurisdiction of all criminal cases, not capital, which shall arise in Escambia county, and shall have in Escam- bia county, concurrent with the Circuit Court and the Circuit Judge of said county, the same original jurisdiction of all other cases and matters as the cir- cuit court and circuit judge of said county and the same power to issue writs of manda- mus, injunction, quo warranto, certiorari, pro- hibition, habeas corpus and all writs proper necessary to the complete exercise of their jurisdiction as the circuit court and circuit judge of said county, except the power and authority to summon and empanel a grand jury.

Section 42. There shall be six terms of said court in each year.

Section 43. There shall be for said court a prosecuting attorney who shall be appointed by the Governor and confirmed by the Senate and who shall hold his office for four years. His compensation shall be fixed by law.

Section 44. All offenses triable in said court shall be prosecuted upon information under oath to be filed by the prosecuting attorney, but the grand jury of the circuit court for said county may indict for any offence triable in the court of record. Upon the finding of such indictment the circuit judge shall com- mit or bail the accused for trial in the court of record, which trial shall be upon informa- tion.

Section 45. The clerk of said court shall be elected by the electors of Escambia county and shall hold office for four years and his compensation shall be fixed by law. The sheriff of Escambia county shall be the exe- cutive officer of said court, and his duties and fees shall be fixed by law.

Section 46. The same rule of procedure and practice which obtain in the circuit court of the county shall obtain in the court of record, and all laws relative to criminal courts of record, except as otherwise provided herein, shall apply to and control the court of record. Change of venue may be had from the court of record to the circuit court of another county for the same causes, and under the laws pro- viding for changing the venue from circuit court of one county to the circuit court of another county. The Governor may, in his discretion, order the circuit judge of Escam- bia county or of any other county to hold one or more terms or parts of terms of the court of record. Any civil cause in the court of record may be tried before a referee, or in case of the disqualification of the judge of the court of record, may be tried by a judge ad litem, or may be transferred to the cir- cuit court of Escambia county or of ony other county, in the same way and according to the same provisisons as govern such proceedings in the circuit court of Escambia county.

Section 47. The Supreme Court of the State shall have appellate jurisdiction in all cases at law and in equity originating in the court of record, and in cases of conviction of felony in the court of record. The circuit court of Escambia county shall have final appellate jurisdiction of all misdemeanors tried in the court of record. All appeals or writs of error prosecuted from the court of re- cord, whether to the Supreme Court or Cir- cuit Court, shall be prosecuted in the same way and according to the same rules as govern such proceedings from the Circuit Court to the Supreme Court.

Approved June 6, 1905.

ARTICLE XXXII.

That the following amendment to Article XVII of the Constitution of the State of Florida be, and the same is hereby agreed to and shall be submitted to the electors of the State at the general election in 1906 for ratifi- cation or rejection:

Section 1. Either branch of the Legisla- ture, at a regular session thereof, may propose amendments to this Constitution; and if the same be agreed to by three-fifths of all the members elected to each house, such proposed amendments shall be entered upon their re- spective Journals with the yeas and nays and shall be published in one newspaper in each county where a newspaper is published, for one month immediately preceding the next general election of Representatives, at which election the same shall be submitted to the electors of the State, for approval or re- jection. If a majority of the electors voting upon the amendments at such election shall adopt the amendments the same shall become a part of the Constitution. The proposed amendments shall be so submitted as to enable the electors to vote on each amendment separ- ately. All amendments adopted at the election at which this is submitted or heretofore adopt- ed by the electors are hereby declared a part of the Constitution from the date of the adoption of the same.

Approved June 6, 1905.

The votes cast in compliance with said proposed amendments, and the canvass, de- clarations and returns thereof, shall be sub- jected to the same regulations and restrictions as are provided by law for general elections in the State of Florida.

In testimony whereof, I have hereunto set my hand and affixed the great seal of the State of Florida, at Tallahassee, the capital, this first day of August, A. D., 1906.

Jumped Track Near Meridian.

Meridian, Miss., Oct. 3.—George Hill, a negro brakeman, was instantly killed and Engineer Brandon of this city, and his white fireman, were seriously injured in a freight wreck on the Alabama Great Southern, above this city. The train jumped the track at a switch, the engine and 10 cars being piled into the ditch. Hill was riding in front, and was crushed to death between the debris. Engineer Brandon had both legs broken and was otherwise badly injured. The fireman, it is reported here, is fatally crushed. All trains are detoured around the wreck.

A Young Mother at 70.

"My mother has suddenly been made young at 70. Twenty years of intense suffering from dyspepsia had entirely disabled her, until six months ago, when she began taking Electric Bitters which have completely cured her and restored the strength and activity she had in the prime of life," writes Mrs. W. L. Gilpaurick of Danforth, Me. Greatest restorative medicine on the globe. Sets stomach, liver and kidneys right, purifies the blood, and cures malaria, billiousness and weakness. Wonderful nerve tonic. Price 50c. Guaranteed by all druggists.

Sale Will Prove Bonanza.

Louisville, Ky., Oct. 3.—A special from New York says it develops that the sale of the Chattanooga Southern to the Louisville and Nashville will prove a bonanza to the holders of $3,000,000 worth of securities. The holders of nearly $3,000,000 worth of defaulted securities in the road will be the surprised recipients of cash payments on bonds and stock which have been regarded as worthless for the last 14 years. For more than a decade they have been marked 'worthless' in the official list of securities.

A Most Worthy Article.

When an article has been on the market for years and gains friends every year, it is safe to call this medicine a worthy one. Such is Ballard's Horehound Syrup. It positively cures coughs and all pulmonary diseases. One of the best known merchants in Mobile, Ala., says: "For five years my family has not been troubled with the winter coughs. We owe this to Ballard's Horehound Syrup. I know it has saved my children from many sick spells." Sold by W. M. Johnson.

Recluse Hoarded $50,000.

New York, Oct. 3.—A special to a morning paper from Hudson, N. Y., says that gold, silver and bills aggregating $50,000 were found in the Robinson homestead, where Miss Frances Caroline Robinson, a recluse, was found dead four weeks ago. The treasure was stuffed in pots, cups and vases, which were hidden in nooks and corners. Miss Robinson left a will, dividing her estate among four charitable societies. It is said that relatives living in New York will make a contest.

Napoleon Bonaparte

Showed at the battle of Austerlitz he was the greatest leader in the world. Ballard's Snow Liniment has shown the public it is the best liniment in the world. A quick cure for rheumatism, sprains, burns, cuts, etc. A. C. Pitts, Rodessa, La., says: "I use Ballard's Snow Liniment in my family and find it unexcelled for sore chest, headache, corns—in fact for anything that can be reached by a liniment." Sold by W. M. Johnson.

Aid Asked For Sufferers.

Montgomery, Ala., Oct. 3.—The people of Mobile made a request of Governor Jelks Monday to set aside $25,000 from funds from the state for the flood sufferers along the gulf coast. This could not be done, as the governor has no right, under the law, to appropriate the state's funds, and he so informed the officials from the Gulf City. The governor issued a proclamation calling on the people to aid the flood sufferers.

MERCURY A DECEPTIVE TREATMENT

Mercury and potash are very deceptive treatments and the blood poison sufferer who depends on them for a cure is sure to be disappointed. These minerals will remove the external symptoms and shut the disease up in the system for a while, but the trouble will surely return and the loathsome symptoms of sore mouth and throat, copper-colored spots, falling hair, sores and ulcers etc., will be accompanied by the disastrous effects of the treatment. The continued use of these strong minerals will completely ruin the health and weaken the system to such an extent that the original disease often becomes incurable and sometimes fatal. Mercury and potash eat out the delicate lining of the stomach and bowels, destroy the gastric juices, producing chronic dyspepsia, cause mercurial Rheumatism, salivation, and where they are taken in large quantities cause necrosis or decay of the bones. S. S. S. is the only remedy that can cure Contagious Blood Poison surely and safely. This remedy of nature, made entirely of roots, herbs and barks, antidotes and destroys the powerful virus of the disease and by purifying the blood of every particle of the poison and enriching and strengthening this vital fluid it removes every symptom and leaves the body in a strong, healthy condition. When the blood has been purified with S. S. S. the cure is complete, and not one vestige of the poison is left for future outbreaks. Do not waste valuable time, and damage your health with the mineral treatment, but cure your case with S. S. S., an absolutely safe remedy. We offer a reward of $1,000 for proof that S. S. S. contains a particle of mineral. Book with instructions for self treatment and medical advice without charge.

His Injuries Proved Fatal.

Savannah, Ga., Oct. 3.—Frederick Blanke died Monday morning after sustaining a fracture of the skull at East Broad and Hartridge streets Sunday night, where he was run into by a car. Mr. Blanke stepped off one car and passing behind it stepped in front of another car, which struck him. No blame is attached to the motorman, H. E. Gapo, or the conductor of the car, B. F. Sanders. The deceased was 18 years of age and is survived by his mother, Mrs. J. D. Brodman.

Audience With Sultan Postponed.

Constantinople, Oct. 3.—Ambassador Leishmann's audience of the sultan, which was to have taken place Oct. 2, after a number of postponements, has again been postponed until Oct. 5, in view of the fact that the sultan's birthday is celebrated Oct. 2, and always is succeeded by a religious reception.

Sick Headache Cured.

Sick headache is caused by derangement of the stomach and by indigestion. Chamberlain's Stomach and Liver Tablets correct these disorders and effect a cure. By taking these tablets as soon as the first indication of the disease appears, the attack may be warded off. For sale by all druggists.

Male Vanity.

Man believes himself irresistible at all ages, and I believe that the older he grows the more fascinating he thinks himself.—London World.

Julius Caesar

Was a man of nerve, but sickness left its mark and he became aged before his time. Sickness is often caused by a torpid liver. Herbine will regulate your liver and give you health. Mrs. Carrie Austin, Holton, Kansas, writes: "I consider Herbine the best medicine I ever heard of. I am never without it." Sold by W. M. Johnson.

Why There Are so Many Smiths.

At the time of the adoption of surnames every artisan whose work required the striking blows on metal was known as a smiter or smith, and the community therefore had its blacksmith, whitesmith, goldsmith, silversmith, arrowsmith and several others of the same character. The number of Smiths of the present day may therefore be readily accounted for when we remember that each of the different kinds of smiths was as much entitled to the use of his trade name for a cognomen as any other artisan. John the blacksmith and John the coppersmith were both known as John the smith, an appellation which naturally resolved itself into the family name of John Smith.

Lest We

Forget—baby is restless, can't sleep at night, won't eat, cries spasmodically. A bottle of White's Cream Vermifuge never fails to cure. Every mother should give her baby White's Cream Vermifuge. So many times when the baby is pale and fretful, the mother does not know what to do. A bottle of this medicine would bring color to his cheeks and laughter to his eyes. Give it a trial. Sold by W. M. Johnson.

Dr. William Sutherland of High Springs was a business visitor to Gainesville yesterday.

R. T. Wynn, J. A. Ward and C. C. Martin, three progressive citizens of Bell, are in the city on business.

W. A. McGriff, the druggist of Micanopy, was among those who spent Tuesday in this city on business.

Mrs. Ann C. Nixon of LaFayette county was in the city yesterday, having come to make final proof to her homestead.

Miss Mabel Voyle, a Kindergarten graduate, will open a Kindergarten at the Seminary building Monday, Oct. 8. Terms on application.

J. C. B. Thomas of Bell, Deputy Sheriff E. A. Osteen of Willeford, and Rev. L. B. Thomas, Rev. F. W. Polk and W. Hines of Franklin, were among those who arrived in the city from the West End yesterday.

The home of Mr. and Mrs. E. C. McMahan, East Gainesville, has been considerably improved in appearance by a liberal application of paint. There has also been other improvements, and now the McMahan home, which was always inviting and cheerful, is more inviting than ever.

J. C. Vertrees, Jr., a prominent citizen and business man of Palatka, was a visitor to Gainesville yesterday. Strange to say, Mr. Vertrees, being a Palatkan, admits that Gainesville is the "best small city" in the State. He is living in a good town himself, however, and there can be found no more hospitable people in the State than in Palatka.

Mrs. J. L. Medlin and children are at home again, after an absence from the city of nearly four months. Mrs. Medlin has just returned from an extended trip abroad, visiting many of the principal European points, which she enjoyed very much. During her absence the children spent the time with relatives in South Carolina.

N. A. Callison, manager of the famous Spring Park Farm, returned yesterday from his old home in Galesburg, Ill., where he has been for the past two weeks recuperating. Friends are glad to see him looking much improved in health. He was accompanied by Mr. and Mrs. W. B. Reynolds and little Miss Reynolds of Abbington, Ill., who expect to remain here for the winter. Mrs. Reynolds is a niece of Mr. Callison. It is to be hoped that they will be well pleased with this section of the country, as this is their first visit South.

PEOPLE OF MOBILE FEAR SECOND STORM

Predictions of Approach of Hurricane Causes Fear.

THE RAIN FALLS IN TORRENTS

Deluge Adds to Suffering—There Is as Much Need For Clothing as For Food—Relief Work Is Being Systematized.

Mobile, Ala., Oct. 3.—Haunted by the recollection of the great storm which has just passed, sustaining further injury and increased financial loss from a heavy rainfall Monday, and fearful of what Tuesday may bring, the residents of the city of Mobile had a most uncomfortable 12 hours, and retired for the night filled with foreboding.

Many residents of the place were, at times, in a state of semi-panic over the dispatches from Washington, which directed that storm warnings be displayed along the Florida coast. There was a slight grain of comfort in the earlier messages, as they did not mention Mobile among the places likely to be visited by the storm now coming up through the Gulf of Mexico. Late in the day, however, the name of Mobile was added to the list of places in the path of a possible tornado and Mobile's cup, which had been full of misery all day, commenced to drip over the edges.

It is a fact, well known to every inhabitant of the city, that a second violent wind coming so closely after that of Wednesday, even though it does not reach the proportions of the recent hurricane, must cause greatly increased injury to the buildings of the city, and possibly some loss of life. Many structures were weakened by the blow of Wednesday so badly that they will not be able to withstand a second attack of even less vigor, and must surely collapse.

During the early evening the barometer here registered 29.63 and had been almost stationary during the greater part of the day. The office of the weather bureau was overwhelmed by anxious visitors, who called by the hundreds to learn of the probabilities of another storm. Local Observer Ashenberger was able to give only slight information, and announced a low condition of his barometer, which was poor consolation for his visitors.

The business houses of the city on Monday sustained almost as much financial loss from a heavy rainstorm, which set in shortly after midnight and lasted about 12 hours, as from the recent disaster. There is scarcely a building in the business section of the city which has a roof capable of keeping out the rain.

At 8 a. m. Tuesday the barometer had commenced to rise slightly for the first time in 36 hours, and it was evident that no immediate danger was at hand.

Local Forecaster Ashenberger, however, declined to grow too optimistic, and warned all merchants who applied to him for advice that it would be just as well if they allowed the bulk of their goods to remain some time longer on the upper floors.

"Nothing can be told about this thing yet," he said. "The barometer may go down in a hurry at any time, and then we may get another storm. The great difficulty with us now is that we have no comparative readings from outside points."

Telegraphic facilities are gradually being restored. All of the railroads except the Louisville and Nashville are running on schedule time, the city streets have been cleared of debris, and save for the battered conditions of so many buildings, Mobile is outwardly at least as good as ever. Repairs on buildings are proceeding rapidly, especial attention being given to roofs in order to rid as far as possible a repetition of the damage by Monday's rain.

Relief work for the stricken communities down the bay is now systematised and working admirably. Food, clothing and bedding is being furnished as rapidly as possible, and although there is still much suffering it is not as acute as at first.

There is still need, however, for all the supplies that can be sent in from outside points.

Busy at Rescue Work.

Pensacola, Fla., Oct. 3.—After a restless night Pensacolans awoke on Tuesday morning to renew the work of rescue and rebuilding, and the latter is being pushed vigorously, with assurance from all of the large firms destroyed that their plants will be restored and on a more extensive scale. Realizing the condition of the city, Governor Napoleon B. Broward of Florida Tuesday wired to Mayor Charles H. Bliss extending through him the sympathy of the people of the state to those in Pensacola over the devastation and wreck wrought by the hurricane, and in his telegram the governor stated that if the citizens desired that he would immediately issue a proclamation calling upon the people of the state and the outside world for assistance. As yet the offer has not been accepted, the city believing it can pull through without assistance from the outside.

The chamber of commerce and city officials have jointly formed a relief committee and have raised thousands of dollars for the care of the worthy. In addition the citizens have donated food and clothing and the poor of the city are being well cared for under the circumstances.

Probably at no time since the hurricane have the people been given such a fright as Tuesday morning, when official news came from Washington of the appearance of another disturbance off Cuba and near the point where the one which wrought death and destruction to Pensacola was first located.

Special weather bulletins were posted advising vessels not to venture out in the gulf, but in this port there were none to leave except a few steamers in the middle of the harbor which are loading.

The list has not grown any Tuesday morning, no bodies being discovered, but there is a terrible stench arising from the mile or more debris along the water front just west of the city. Along that route the water front was the most thickly populated, and the fishermen's cottages were within a short distance of the water. The houses were cleared away as if by one stroke, and it is believed that in the piles of debris will be found many bodies of unfortunates who were caught like rats in a trap and drowned. The full list of the dead will not be done until the thousands of pieces of timber and wrecks of vessels along the beach are removed, and then there will be many to go down to their watery graves unnumbered, as many vessels have been wrecked upon the beach and sunk in the harbor and men drowned whose names will never be known.

Rear Admiral Capps, chief of the bureau of construction and repair, who came from Washington immediately after he learned that five war vessels had been wrecked at the navy-yard and a total damage done exceeding $1,000,000, is there supervising the work of raising the wreck and making temporary repairs.

Many of the fine new buildings, some of which have not even been completed have been damaged to a great extent; in fact, outside of the city the navy-yard and Warrington resident section have suffered more than any other vicinity. No move has been made by the army to rehabilitate the deserted forts across the bay. Fort McRae has been swept almost off the earth, with its new and modern batteries and disappearing guns, and it was here that five were drowned and five others underwent such a harrowing experience that they are now chained in the army hospital raving maniacs.

Fort Pickens has been greatly damaged, but not to the extent of Fort McRae, and although many of the buildings there have been wrecked, the army has found sufficient room for enough men to man the batteries. Captain Broadbent, in command of the life saving station, of which there is not even a board left, has received advices to care for the life saving crew in the city until Superintendent Hutchins can reach here, when temporary quarters will probably be arranged on Santa Rosa island for the men.

Here in the city hundreds of men are at work and working with a vim and vigor that can only be mustered in such a crisis as the present.

Every damaged dock vessel track wire and building is being repaired and to put back what the hurricane of Thursday morning carried away will require an army of workmen and there is almost an army employed at the various points.

It is predicted that from the wreck of the city of today there will arise a city far more beautiful, and that the storm will be the cause of an era of prosperity seldom witnessed in Florida at this season of the year.

All classes of workmen will be employed and business will consequently be brisk.

EX-PRESIDENT PALMA LEAVES CUBAN PALACE

Departure Witnessed by Small Crowd.

THERE WAS NO DEMONSTRATION

Navy Department Has No Confirmation of Rumor of Battleship Texas Being Disabled—Rebels Reported to Be Seizing Horses.

Havana, Oct. 3.—Ex-President Palma left the palace at 9 o'clock Tuesday morning. He bade farewell in his apartments to many friends, including Generals Montalvo and Rodriguez and then descended the grand stair case, and accompanied by his family, entered a closed carriage and was driven to the ferry to Regla, where he took a train for Matanzas. His departure was witnessed by a small crowd, but there was no demonstration.

Report Not Confirmed.

Washington, Oct. 3.—The navy department has no confirmation of the rumor that the battleship Texas is disabled off the capes, and believes that the vessel is now on her way to Cuba. As soon as the Texas and the Prairie arrive at Havana, the big battleships Kentucky and Indiana will be relieved and ordered north to complete their target practice. They are not needed as warships in Cuba, merely serving as boarding houses for the marines and sailors.

Shafter On Cuban Affairs.

San Francisco, Oct. 3.—Major General Shafter, U. S. A., retired, who commanded the military operations in Cuba in 1898, said in an interview that he did not think the army of occupation would have much to do in the island.

"A hundred American soldiers would be sufficient to seize and hold Cuba at the present time," said the general. "There are, however, some very wily natives among the contending Cuban forces, and they may be expected to hold out and be an uncertain quantity until assured that the American occupation is an occupation in fact."

Rebels Are Seizing Horses.

Havana, Oct. 3.—It is reported here from Guantanamo that 600 armed rebels collected near that town are seizing horses, cattle and provinces. Governor Taft and the Cuban authorities regard the report as exaggerated.

Troops Will Sail From Tampa.

Tampa, Fla., Oct. 3.—Infantry, artillery and horses due here Wednesday morning enroute to Cuba, steamship Andes, sailed from Havana Monday morning direct to Tampa to take troops. Efforts are being made to get a permit from the surgeon general to allow the Andes to pass quarantines without detention. Other boats are ordered here to assist the Andes in moving the troops as soon as boats can be located and secured.

Will Guard Cuban Railroad.

Washington, Oct. 3.—Captain Condon, the senior naval officer at Havana, reported to the navy department Tuesday that acting under instructions of Secretary Taft, he had ordered the warship Kentucky to Matanzas from Havana, and the Newark to Neuvitas to guard the railroad there.

W. & A. ROUNDHOUSE BURNED.

About $100,000 In Damage Done to Railroad Property In Atlanta.

Atlanta, Oct. 3.—While 1,000 or 1,500 spectators stood in a drenching rain, the historic old Western and Atlantic roundhouse and work shops, situated about 100 yards west of the Forsyth street bridge, were destroyed by fire Monday night, shortly after 9 o'clock.

The loss will approximate something less than $100,000 and the railroad is without insurance.

Major J. L. McCullom, superintendent of the Western and Atlantic, has furnished the following estimate of the damage: Fifteen engines damaged to the extent of about $2,000 each, total $30,000; estimate damage to machinery $20,000; buildings, including roundhouse, machine shops, etc., damaged in the neighborhood of $15,000.

The question of rebuilding at once upon the present site will be decided Tuesday by officials of the road. It is supposed that the blaze was caused by a spark from a passing engine igniting a pile of shavings in the wood shop.

Major McCullom stated Tuesday morning that the traffic of the road, both freight and passenger, would not be interfered with in the least, as a result of the conflagration.

"We have plenty of engines in Chattanooga to handle all business," said he. "All that are needed are being rushed to Atlanta. Every car will be moved and the outside public will never know that there has been a fire, as far as the service of the road is concerned."

Major McCullom stated that it would be impossible to give a definite idea of the damage sustained, but said that the total loss would be less than $100,000.

Georgian Commits Suicide.

Jackson, Ga., Oct. 3.—O. S. Carmichael, the 23-year-old son of David N. Carmichael, a prominent and wealthy farmer of Butts county, is reported to have shot himself to death on the streets of Stockton, Cal., on the night of Sept. 28. It was first reported that A. J. G. Carmichael was dead in Stockton, Cal., but the family of the dead man have received information that it was O. S. Carmichael, he being identified by J. W. Lummus, who served with him in the Spanish-American war, and who is now in California. Mr. Carmichael comes from one of Butts county's most prominent families, but for several years he has been out west. The sad news has caused a gloom on his friends here.

No More Bleaching For Sugar.

New York, Oct. 3.—Unless the United States pure food commission changes its mind, the people of the United States will soon be using granulated and other sugars that have a distinctly yellowish tinge. The commission has decreed that no mineral blueing substance be used in bleaching sugars. Sugar chemists say they use 4 pounds of a mineral blueing substance to every 1,000,000 pounds of sugagr for bleaching purposes. The chemists say the use of the bleacher is not adulteration; that it is mere purification by a thoroughly healthful process. The pure food commission cannot see it in that light, and insists that the whitening process be abandoned.

Meat Inspectors Assume Duties.

Chicago, Oct. 3.—Three hundred inspectors entered upon their duties at the Chicago packing houses Monday under the new federal law. Judging from the first day's business, the inspection will be thorough and systematic. "If there is anything wrong, it is up to the government," said one packer, with apparent relief. That is the position of all the packers. From statements made by Secretary Wilson, of the agricultural department, the government is willing to assume the responsibility.

Drunken Man Wounds Two.

Oklahoma City, Okt. 3.—Crazed from liquor, John F. Noble of Memphis, Tenn., fired six shots into a crowd of men in a saloon here early Tuesday, fatally wounding George Williams, a butcher, and dangerously wounding John Thompson, a painter. Noble was arrested.

BUSINESS MEN TO TAKE A HA

Macon Merchants to Disc Strike Situation.

CHAMBER COMMERCE WORR

Anxious For Some Agreement tween Street Car Company and Strikers, So as Not to Inter With the Fair.

Macon, Ga., Oct. 3.—A commi of Macon ministers, composed of J. L. White, Rev. T. D. Ellis, R Harry Weiss, and Rev. Bohler W ker, appointed by Mayor Smith, ferred all day with the hope of tling the differences between street car strikers and the comp and Monday night, at 6 o'clock, reported that they had failed to ge hearing in any plan of adjustme They asked that a committee of disinterested persons be allowed make terms, but this idea was tur down by the directors.

A full report of the situation made to a special meeting of cou Monday night by Mayor Smith, the matter was freely discussed.

Resolutions, drawn by Alderm Hart, assured the people of Geo that they would find a hearty come to the fair, and protection important on such an occasion.

With the adoption of this measu an invitation was extended the peo of the state to come to Macon, feel that order would prevail. Ju Hodges of the city court, announc that the militia would protect all pr erty of the company outside the c and guaranteed protection to pas gers. Mayor Smith also gave ass ance of protection within the c limits.

The street car men are as fi determined, and their course Mond has added strong sympathy.

The merchants have planned for meeting in which they are to ado a determined boycott against the co pany should its directors push throu the fair without agreeing to s terms to dispose of the differences.

The chamber of commerce membe also find themselves badly worri about the situation, and their supp will go to the strikers in their effo to run an effective boycott, if they a forced into the fair without con eration.

Only one case of disorder was re ported Monday. Henry Cox, an E Macon citizen, assailed E. F. Stro a conductor, for an alleged statem by the conductor, at the offices of t company, that Cox was planning trou ble. Cox was arrested, but later re leased on bond. No militia has be needed.

Cars in charge of new men knock down the trolley wire at the junctio of College and Oglethorpe streets an killed a hack horse and badly injure John Jones, driver, on No. 43 hack. When the trolley struck the wire by some means, it was let loose, an created considerable excitement. Se eral parties had narrow escapes fro being struck by the live wire. A the cars went in immediately after the accident.

With a great horse show and mil parade Tuesday at noon, Macon's Ce tennial fair was thrown open to the people of Georgia. Fair officials hav given close attention to completing arrangements for the opening, and as a result they are boasting one of the best fairs ever seen here.

Live stock and farm exhibits pour Monday completed a display of the agricultural interests of the state never surpassed here. The farm im plements and machinery display and the business exhibits, are extensive and reveal a preparation for a mense fair.

Bible Is Not God's Word.

Detroit, Mich., Oct. 3.—Rev. Charles D. Williams of the Episcopal diocese of Michigan, in an address the Young Men's Christian Associa tion members here Monday, declared that the Bible is not the word of God and that the teachings in the Bible are the only profitable part of it. He declared the church has to contend with

PUBLIC SCHOOL OPENS WITH FINE PROSPECTS

Over 400 Pupils Were Enrolled On the Day of Opening.

MOST IMPRESSIVE CEREMONIES

In the Auditorium—Meeting Opened With Singing of America, Followed by Prayer and Several Talks by Prominent Citizens.

School opened Monday morning promptly at 9 o'clock, with an attendance of over 400 pupils.

Many patrons were in attendance. The scene from the stage—the sea of bright, happy, earnest faces, was a sight long to be remembered.

The exercises were opened by the singing of "America," in which over 400 voices joined. After this, Rev. T. J. Nixon read the parable of the ten talents, which was followed by an earnest, inspiring prayer by Rev. T. P. Hay. The principal then introduced Dr. Kelley, our efficient county superintendent, who made a most effective and pleasing address. He was followed by Col. W. W. Hampton on the part of the District School Board, who gave a most impressive and helpful talk. There were present also on the stage Rev. F. H. Craighill and J. H. Vidal of the District School Board.

After a short address by the principal, the pupils were marched to their rooms and the work of classification and organization began, which was finished about 12:30.

It was on the whole a most auspicious opening The first day's attendance is the largest ever known. The teachers are all enthusiastic over the outlook.

The Sun will publish each Sunday morning interesting notes of the week's work.

An Enjoyable Surprise.

There was rather an agreeable surprise at the home of Rev. and Mrs. S. B. Rogers Monday evening, the occasion being a "surprise reception" tendered the good pastor and his family upon their home-coming from North Carolina, where they spent the summer delightfully.

There was a large number of the Baptist congregation and friends present, and it is needless to add that everybody had a good time. The ladies furnished an abundance of delicious cream and cake, which was keenly relished.

TERRIBLE ITCHING SCALP HUMOR

Badly Affected With Sores and Crusts—Extended Down Behind the Ears—Some Years Later Painful and Itching Pustules Broke Out on Lower Part of Body—Son Also Affected.

A TRIPLE CURE BY CUTICURA REMEDIES

"About ten years ago my scalp became badly affected with sore and itching humors, crusts, etc., and extending down behind the ears. My hair came out in places also. I was greatly troubled; understood it was eczema. Tried various remedies, so called, without effect. Saw your Cuticura advertisement, and got them at once. Applied them as to directions, etc., and after two weeks, I think, of use, was clear as a whistle.

"I have to state also that late last fall, October and November, 1904, I was suddenly afflicted with a bad eruption, painful and itching pustules over the lower part of the body. I suffered dreadfully. In two months, under the skilful treatment of my doctor, conjoined with Cuticura Soap and Cuticura Ointment, I found myself cured.

"Six years ago my son was laid up with a severe cold, a hard cough, and finally painful eruption all over the body. I procured the Cuticura Remedies as soon as possible, and after his faithful use of same was as well as ever in two weeks, as well as I can recall. He has never had a return of the illness, as far as I know.

"I have always been pleased to commend the Cuticura Remedies, and testify as to their efficacy. I am a veteran of the late Civil War, '61-'65, between seventy and eighty years of age. Yours truly, H. M. F. Weiss, Rosemond, Christian Co., Ill., Aug. 31, 1905."

DR. POST'S RETURN.

Was for Many Years a Prominent Promoter and Business Man Here.

Dr. J. H. Post, for several years a prominent resident, real estate man and merchant of this city, but more recently of Atlanta, Ga., and Portland, Ore., has arrived in Gainesville and will remain here for several months on business.

In his time no man was more widely known in Gainesville and Alachua county. He was a moving spirit, and worked on extensive lines, accomplishing a great deal of good for this section. He is the founder of the village of Paradise, five miles north of this city, which is an important point on account of its naval stores interests. For several years the McDonald Lumber Company also operated extensively there.

Friends of Dr. Post are glad to see him again, and trust that, since Gainesville is growing rapidly, he will decide to make his permanent home here again.

SUNDAY'S UNION SERVICE.

A Large Crowd Present to Hear Sermon of Dr. Andrew Sledd.

The union or welcome service at the First Presbyterian Church Sunday evening, at which Dr. Andrew Sledd, President of the University of Florida, delivered the sermon, was well attended, the church being crowded to its fullest capacity.

A special space was reserved for the faculty and students of the University, and more than fifty of them attended the service.

Rev. Thos. P. Hay, the pastor, made the opening address of welcome to the faculty and students, after which Dr. Sledd delivered an eloquent and impressive sermon, the text of which was I Kings, 2:2: "I Go the Way of All the Earth; Be Thou Strong Therefore, and Show Thyself a Man."

During the sermon the closest attention was paid to the speaker, who seemed at his best upon this occasion.

PROF. TOM M'BEATH WANTS THINGS RIGHT

Addresses Another Circular Letter to Public School Patrons.

WANTS AN UNDERSTANDING

Gives Some Good Advice to Patrons and Pupils, and Declares it is Mutually Advantageous For Faculty, Parents and Pupils to Work Together.

To the Patrons of the Public School:

At the teachers' meeting last Saturday the plans for the present session of the University High School were discussed and agreed upon. Monday, the work of organization was practically completed, and the regular work of the school begins this morning under most favorable auspices.

I desire to call your attention to the following announcements, regulations, etc., and to solicit your hearty co-operation in carrying them out to the end, that, all working together, we may make this, for all concerned, the most profitable and pleasant year in the history of the school. There is no reason why it should not be so; there are many good reasons why it should be so. Please note:

1. The daily session will begin at 8:15 a. m. The first bell will ring at 7:45 to announce that the doors will open in 30 minutes. The second bell will ring at 8:15. Pupils who are not in their rooms by 8:25 will be marked tardy. Pupils should not start to school before the ringing of the first bell; they should be on the school grounds by the time of the second bell. Parents will please see to it that the children leave home just in time to reach the school building between 8 and 8:15.

2. The morning session closes at noon, and the afternoon session begins promptly at 1 p. m. The bell will ring at 12:45. Children who go home for dinner should start for school promptly at the ringing of the bell. Pupils who get to school after 1 p. m. will be accounted tardy.

3. The daily session, for all pupils whose deportment is good and who have faithfully prepared their lessons, will close as follows:

Grades I and II, noon; Grade III, 2 p. m.; Grade IV, 2:15 p. m.; Grade V, 2:30 p. m. All upper grades 2:45 p. m.

Pupils in all grades above the second, whose conduct or lessons for the day has not been satisfactory, will be kept thirty minutes longer for study.

To get the best out of the school pupils must be regular and punctual in attendance. To secure these results, the home and school must work together. Our aims are identical, our purposes are one—the best we can do for the children. We must not work at cross purposes, but with the fullest and clearest understanding and in mutual confidence.

The principal will be glad at any and all times, during school hours, to see and consult with parents in regard to the welfare and interests of their children. Parents are urged to visit the school, to feel free to complain to the principal when things do not go right, and to express their appreciation to the teachers when things do go right. Teachers need and appreciate the support and sympathy of the parents.

There will doubtless sometimes arise matters needing attention that, escaping the eyes of principal and teachers, may reveal themselves to patrons. The principal will take it as a favor if he is notified promptly of such. In short let us have the fullest understanding, one with another, and mutually co-operate to make the school what it ought to be.

Sincerely yours,
TOM F. MCBEATH, Principal.

A Most Worthy Article.

When an article has been on the market for years and gains friends every year, it is safe to call this medicine a worthy one. Such is Ballard's Horehound Syrup. It positively cures coughs and all pulmonary diseases. One of the best known merchants in Mobile, Ala., says: "For five years my family has not been troubled with the winter coughs. We owe this to Ballard's Horehound Syrup. I know it has saved my children from many sick spells." Sold by W. M. Johnson.

HATCHET AND PISTOL

Were the Weapons Used—One Man Cut in Head for Alleged Insult to Woman, Another Shot in Head by Discharge of Pistol in Friend's Hand.

From Tuesday's Daily Sun

Sunday seems to have been a red-letter day for tragedies.

On Sunday afternoon, near Tacoma, Jim Fields and Jim Leggins, two colored men, became involved in a row, it is said, over the ungentlemanly manner in which Leggins treated a daughter of Fields, the woman declaring that Leggins shot at her. She came to her father with the complaint, when Fields secured a hatchet, it is alleged, and went on a search for the man who had insulted his daughter. Upon finding him the men clashed, when Leggins was cut severely about the head and shoulders, and is in a precarious condition.

Fields was arrested by Deputy Sheriff Tom. Burch, and taken before Justice Smith at Micanopy Monday. The result of the hearing has not been learned, but it is said by those familiar with the case that the defendant was probably released.

On the same afternoon one negro accidently shot another near Evinston. It appears from those who are supposed to know something about the case that the negro, whose name could not be learned, was fooling with a pistol which he did not know to have all chambers loaded. When a friend approached he deliberately pointed the weapon at him and pulled the trigger, when a ball entered the head of the other party. This party is yet living and it is said his condition is critical.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to, I had better attend to it at once, as I could not possibly live another month, as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." Funeral of Mr. Lewis.

Mr. and Mrs. F. C. Reinhardt have returned from Wade, where they went to attend the funeral of the latter's father, Mr. S. P. Lewis, Saturday afternoon. Other relatives present at the funeral besides the widow and Mrs. Reinhardt were the following children: Mrs. J. H. English of Greenville; Edgar Lewis of Fort White. The interment was at Forest Grove cemetery, Rev. Mr. Clark officiating. Mrs. Lewis desires through The Sun to thank all her friends and neighbors who were so kind during her affliction.

BOTH FOOD AND MEDICINE.

We like best to call Scott's Emulsion a food-medicine. It is a term that aptly describes the character and action of our Emulsion. More than a medicine—more than a food, yet combining the vital principles of both. It is for this reason that Scott's Emulsion has a distinct and special value in all wasting diseases. There is nothing better to remedy the troubles of imperfect growth and delicate health in children. The action of Scott's Emulsion is just as effective in treating weakness and wasting in adults.

DEATH OF MRS. HARTMAN.

A Noble Christian Lady Passed Away at Paradise Sunday Morning.

Miss Lizzie Hartman, wife of Rev F. M. Hartman of Paradise, died at 7 o'clock Sunday morning, after an illness of forty-nine days, first with typhoid fever, afterward with kidney trouble.

Deceased was about fifty years of age. She was married thirty-three years ago to Mr. Hartman and their union has been blessed with six children. Rev. and Mrs. Hartman came to Paradise about twenty years ago, since which time they have lived constantly there.

Deceased was a devout Christian, a member of the Baptist church, and was possessed of a most lovable and charitable disposition. She had many friends throughout the entire county, who will learn of her death with regret.

Deceased is survived by a husband and six children, Allie Hartman, M. Hartman, Nevie Hartman, Waldo Hartman, Roscoe Hartman and Miss Daisy Hartman, to whom the sympathy of friends is extended.

The funeral was held on Monday morning at Paradise, Rev. S. B. Rogers of the First Baptist Church, this city, officiating. The interment was in Evergreen cemetery, Gainesville. The pallbearers were M. B. Saunders, J. F. Bunch, J. M. Rivers, J. B. Padgett, R. B. Livingston, S. J. Burnett.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:

Frank Richardson Gone.

Frank Richardson of the W. T. Hadlow Company, Jacksonville, who has been here for the past ten months superintending the construction of the buildings of the University of Florida, having finished temporarily his labors, left Saturday for Jacksonville. From Jacksonville on Sunday he took the Clyde Line for New York, and after a brief stay in the Metropolis will proceed to Hartford, Conn., where he will join his wife, who has been in that city for the summer. During his stay here Mr. Richardson made many friends. He is possessed of that clever, sociable manner, which must make acquaintances and friends wherever he may happen to be. He has other work to do here, but this was not absolutely necessary at this time, hence he decided to postpone the same until some time in November or December.

BAIRD MILL IS BUSY.

Large Force Working Full Time Manufacturing Boxes and Baskets.

One of the busiest places in this section at this season of the year is the mill and crate factory of E. J. Baird, South Gainesville. A large force of men and boys are engaged there in the manufacture of orange boxes and lettuce baskets, and the demand already is something enormous.

Mr. Baird stated Saturday that the planters and orange growers are anticipating a tremendous yield the coming season. This is particularly true of lettuce, as it is estimated that thousands of baskets of this choice vegetable, of which Alachua county is the center for Florida, will go forward the coming season.

The growers throughout the Gainesville section are busy with the diversified fall crop now.

Lest We

Forget—baby is restless, can't sleep at night, won't eat, cries spasmodically. A bottle of White's Cream Vermifuge never fails to cure. Every mother should give her baby White's Cream Vermifuge. Willie Johnson Yet Alive.

Information comes from Micanopy that Willie Johnson, the fourteen-year-old son of Dr. and Mrs. W. C. Johnson, who was accidentally shot while fooling with a pistol a few days ago, is still alive, and is resting easily, with a fine chance of recovery.

It was a miracle that this lad was not killed outright, as those familiar with the nature of the wound state that the bullet, a 32-caliber, entered the head, passed in a circle and came out at the other side just under the skin. It was most miraculous, and something which would not occur once in a million times.

Letter to Fagan Bros.,
Gainesville, Fla.

Dear Sirs:—A pound of good meat and no bone is worth more than a half-pound of meat and a half-pound of bone; but there are, as you say, a great many people who won't pay more than a certain price by the pound. Give 'em bone; that's right; give 'em plenty of bone!

There are people who won't pay more than $1.50 a gallon for paint; give 'em bone!

There's no better school than experience; cost is high, but the lesson is never forgotten.

Let a man paint two houses alike, same size; one Devoe, the other that $1.50 paint. He buys 10 gallons of each and pays $3 a day for labor—$3 a day is $3 a gallon, easier reckoning.

He has to buy 2 gallons more of the $1.50 paint; and has two gallons left of Devoe; 12 gallons $1.50, $18; 8 gallons $1.75, $14; $4 more for "cheap" paint.

He pays $3 a gallon for painting: 8 gallons $24; 12 gallons $36; $12 more for painting "cheap" paint.

He'll buy the less-gallons paint after that. If people are slow to learn, it's because they keep on buying bone-meat. Give 'em plenty of bone.

Yours truly,
F. W. Devoe & Co.

"Not the least, though mentioned last, are the churches of Gainesville. These are all brick and stone edifices, of the best architectural design, elegantly furnished inside and out and supplied with the very best musical instruments. I expect that the pipe organ in the large and elegant Methodist church is as good, if not the best instrument of its kind in the State. These churches are supplied with able and faithful preachers and the people fill these churches, sometimes to overflowing, when all of them are open.

"The students who go to the University will find in the people and in the churches those influences and conditions which tend to elevate the principles of the young and furnish them with ideals upon which to build up their characters.

"Gainesville also has the finest high school building in the State and a court house which is a credit to the city and the county; besides it has a Chautauqua, which annually holds successful sessions."

ADJOURNED MEETING COUNCIL

Met Tuesday Night and Wednesday, But Little Business Transacted.

In compliance with adjournment of Monday night, the municipal legislature convened on Tuesday evening, but there was little business of importance transacted.

The tax books of the city were accepted from Tax Assessor Bradford.

The question of the undesirable position of the pound was discussed, which resulted in the passage of a resolution requesting the mayor to have same removed to East Masonic street, at a point just north of the county jail. This resolution also carried with it a suggestion of the necessity of a pound in the western section of the city—and those who have walked on West Liberty street over the beautiful granolithic sidewalks, recently constructed, will concur in this suggestion, if the ordinance prohibiting the running at large of cattle is to be enforced.

The session of the council Wednesday afternoon was devoted to the approval and payment of bills.

P. B. SARTORIS IN TROUBLE.

Arrested Upon Warrant Alleging the Issuing of a Worthless Check.

Just as he was stepping from the train at Fairbanks yesterday, P. B. Satoris, a white man employed by John P. Lynch in the capacity of foreman of the logging department of the big Lynch mill, was arrested by Deputy Sheriff I. C. Walker upon a charge of giving a worthless check.

It is said that Satoris issued a check on the First National Bank of this city to one B. F. Wilson of Orange county, and that the same was turned down with the endorsement of "no funds." Mr. Wilson, or some other authority, caused the warrant to be issued.

Satoris was brought to this city and placed in prison, and will be given a preliminary hearing. Attorney Robt. E. Davis will represent the defendant.

Each one of the committee on contributions is authorized to appoint two or more sons of Confederate soldiers to assist him, and the members of such committee are requested to report how they have succeeded at a meeting to be held in Gainesville on Saturday, Oct. 27, at 11 o'clock a. m.

Miss Irene McCreary was chosen sponsor, and Miss Mabel Voyle maid of honor, of Stonewall Camp.

On motion it was resolved the J. J. Finley and Kirby Smith Chapters of the Daughters of the Confederacy be requested to assist in the entertainment of the Confederate Veterans when they meet in our city.

There being no further business the meeting adjourned to October 27, at 11 o'clock a. m.

Commander Horatio Davis of the camp presided, and Adjutant J. C. McGrew acted as secretary.

Ladies' Hospital Association.

In pursuance to a call, a meeting of the Ladies' Aid Association to the Gainesville and Alachua County Hospital Association was held at the Odd Fellows' Sanitarium on Tuesday afternoon.

This meeting was well attended, and was full of interest from beginning to end. In the absence of the president, Mrs. Dr. N. D. Phillips, Mrs. Dr. J. F. McKinstry presided, with Mrs. Tom F. McBeath as secretary.

There was a great deal of business of importance discussed relative to the hospital, and it was determined to make a united effort to further assist in the work in co-operation with the regular association. The association has set the first Monday in each month as the date for holding their meetings, and the place of meeting will be at the Sanitarium.

Tired, Nervous Mothers

Make Unhappy Homes—Their Condition Irritates Both Husband and Children—How Thousands of Mothers Have Been Saved From Nervous Prostration and Made Strong and Well.

A nervous, irritable mother, often on the verge of hysterics, is unfit to care for children; it ruins a child's disposition and reacts upon herself. The trouble between children and their mothers too often is due to the fact that the mother has some female weakness, and she is entirely unfit to bear the strain upon her nerves that governing children involves; it is impossible for her to do anything calmly.

The ills of women act like a firebrand upon the nerves, consequently nine-tenths of the nervous prostration, nervous despondency, "the blues," sleeplessness, and nervous irritability of women arise from some derangement of the female organism.

Do you experience fits of depression with restlessness, alternating with extreme irritability? Are your spirits easily affected, so that one minute you laugh, and the next minute you feel like crying?

Do you feel something like a ball rising in your throat and threatening to choke you; all the senses perverted, morbidly sensitive to light and sound; pain in the abdominal region, and between the shoulders; bearing-down pains; nervous dyspepsia and almost continually cross and snappy?

If so, your nerves are in a shattered condition, and you are threatened with nervous prostration.

Proof is monumental that nothing in the world is better for nervous prostration than Lydia E. Pinkham's Vegetable Compound; thousands and thousands of women can testify to this fact.

Mrs. Chester Curry, Leader of the Ladies' Symphony Orchestra, 42 Saratoga Street, East Boston, Mass., writes:

Dear Mrs. Pinkham:—

"For eight years I was troubled with extreme nervousness and hysteria, brought on by irregularities. I could neither enjoy life nor sleep nights: I was very irritable, nervous and despondent.

"Lydia E. Pinkham's Vegetable Compound was recommended and proved to be the only remedy that helped me. I have daily improved in health until I am now strong and well, and all nervousness has disappeared."

Mrs. Charles F. Brown, Vice-President of the Mothers' Club, 21 Cedar Terrace, Hot Springs, Ark., writes:

Dear Mrs. Pinkham:—

"I dragged through nine years of miserable existence, worn out with pain and nervousness, until it seemed as though I should fly. I then noticed a statement of a woman troubled as I was, and the wonderful results she derived from Lydia E. Pinkham's Vegetable Compound. I decided to try it. I did so, and at the end of three months I was a different woman. My nervousness was all gone, I was no longer irritable, and my husband fell in love with me all over again."

Women should remember that Lydia E. Pinkham's Vegetable Compound is the medicine that holds the record for the greatest number of actual cures of female ills, and take no substitute.

Free Advice to Women.

Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, Lynn, Mass., invites all sick women to write to her for advice. Mrs. Pinkham's vast experience with female troubles enables her to advise you wisely, and she will charge you nothing for her advice.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

TAFT IS GOVERNOR OF CUBAN REPUBLIC

Palma's Resignation Caused Intervention.

CUBAN FLAG IS STILL FLYING

Provisional Governor Taft Will Keep Cuban Government Intact and Relinquish Reins Only When the Island Is Satisfied With Executive Officers.

Havana, Oct. 1.—An American provincial government assumed possession of Cuba Saturday when Secretary Taft's proclamation declaring himself provisional governor of the island was formally issued. The proclamation was published in the official Gazette and thousands of printed copies of the document were distributed in Havana and elsewhere.

The terms of the proclamation caused general satisfaction, especially on account of the moderate terms in which it is phrased, its statement that the provisional government of Cuba is undertaken on account of the necessity of the situation and its promise that the provisional government will be maintained purely for the purpose of restoring peace, order and public confidence until a permanent government is established. No one appears inclined to doubt the good intentions of the president and his representatives, and there is no apprehension of any serious trouble or resistance to the provisional government in any part of Cuba.

No disturbance of any kind occurred Friday night. The business interests here are gratified at the change of government. A striking feature of the provisional government is the fact that the Cuban flag has not been lowered. This establishes a precedent in provisional governments and protectorates.

Governor Taft's proclamation was as follows:

"To the People of Cuba: The failure of congress to act on the irrevocable resignation of the president of the republic of Cuba or to elect a successor leaves the country without a government at a time when great disorder prevails and requires that, pursuant to the request of Mr. Palma, the necessary steps to be taken in the name and by the authority of the president of the United States to restore order and protect life and property in the Island of Cuba and the islands Keyes adjacent thereto and for this purpose to establish therein a provisional government. The provisional government hereby established will be maintained only long enough to restore order, peace and public confidence by direction of and in the name of the president of the United States, and then to hold such elections as may be necessary to determine on those persons upon whom the permanent government of the republic should be devolved. In so far as is consistent with the nature of a provisional government established under the authority of the United States, this will be a Cuban government, conforming with the constitution of Cuba. The Cuban flag will be hoisted as usual over the government buildings of the island; all the executive departments and provincial and municipal governments will continue; all the executive departments administered as under the Cuban republic; the courts will continue to administer justice and all the laws not in their nature inapplicable by reason of the temporary and emergent character of the government will be in force.

"President Roosevelt has been most anxious to bring about peace under the constitutional government of Cuba, and he made every endeavor to avoid the present step. Longer delay, however, would be dangerous in view of the resignation of the cabinet.

"Until further notice the heads of all the departments of the central government will report to me for instructions, including General Alexandro Rodriguez, in command of the rural guards, and other government forces, and General Carlos Roloff, treasurer of Cuba. Until further notice the civil governors and Alcaldes will also report to me for instructions.

"I ask all citizens and residents of Cuba to assist me in the work of restoring order, tranquility and public confidence. (Signed)

"WILLIAM H. TAFT.
"Secretary of War, U. S. A.
"Provisional Governor of Cuba.

OUR SCHOOL—ONE CLASS VS. ANOTHER.

The old school bell again chimes out 'come," and as we look forth and see the groups of boys and girls on their way to school, we note some whose elastic step and cheerful faces are highly indicative of the soul and mind, and all such will prove a blessing to themselves, their teachers and their school. Their actions show their anxiety for work; their lessons will be perfectly prepared; their recitations well given, and they will attain to that round on the ladder of fame and learning called success. They will master all knotty problems, not only in school but in life. They will not require punishing in order to teach them the necessity of getting their lessons. They study because they love to; are industrious and energetic from principle; their life will be a success.

Following comes another group of boys whose lagging steps and sullen faces show that the sound of the bell grated harshly upon their ears. These boys will prove unruly, unkind and, unlike the other class named, will take but little interest in their work, and at the end of the year, in spite of a teacher's earnest efforts in their behalf, will be but little farther advanced than in the beginning.

We need not say what the result will be in the latter case, but to these boys' parents we wish to say, try to cultivate in their minds a love for the school and school work. See to it that they are in school every day; that their report cards show a good grade or know why such is not the case. In other words see if you can't control your boy and not depend on the teacher to do it.

THE PROPER SPIRIT.

If the better element of negroes throughout the South would practice the spirit breathed in the following resolutions adopted at a mass meeting of the colored people in Griffin, Ga., the two races would get along amicably and work for the advancement of each other. A dispatch from Griffin, under date of September 28th, says:

The better class of negroes of this community have issued a card to the public offering co-operation in stopping crime that leads to such affairs as the recent one in Atlanta, and calling on the better members of the colored race to give aid. In part they say:

"We believe that the South offers the best advantages for the negro and we deprecate anything which has a tendency to destroy the peaceful relation which should exist between us.

"Therefore, we, the undersigned, do denounce in no uncertain terms the foul, inhuman and brutish attacks upon Southern womanhood, and that we pledge to the authorities our unlimited support in hunting down the criminal and ridding our community of the same.

"We insist that the civil authorities be assured that the best negroes of Griffin deplore the crime and are for law and order. We are ready at all times to render any service which would make our community a model one.

"We implore the city authorities to abolish all places where vice and immorality are bred. We especially mention the pool room for the colored of Griffin. This place lures the boy from his work, makes him unreliable and implants into him low ideals.

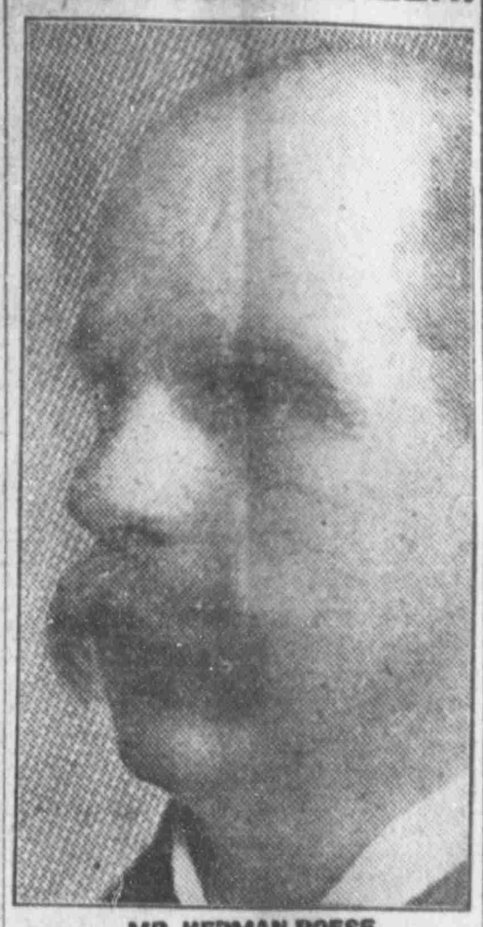
"We further recommend that the city council enact and enforce stringent measures against needless and promiscuous congregating of negro boys and girls in and about the depot at train hours, making the place a nuisance.

"We also urge the rigid enforcement of the vagrancy law, that will rid our streets of these loafers, as it is this class who menace our peace.

"With the assurance of our support toward law and order, which we regard as our imperishable duty, we would enlist the sympathy and Christian consideration of our white friends in our efforts to become a people loved and respected in the land where our lot is cast."

One of the most interesting and attractive features of the art department of the State Fair will be the display of a large collection of paintings and photographs of Florida's distinguished men and women of the past and present. These paintings and photographs will include soldiers and statesmen and men and women of note in every walk of life. Persons possessing such paintings and photographs are requested to send them in for display before the Fair opens.

OF VITAL INTEREST TO EVERY CITIZEN.



MR. HERMAN ROESE.

A Man of Prominence in School Circles and Overseer of the Poor Says Pe-ru-na Has Proven a Most Efficacious Remedy.

Herman Roese, 18 New Butternut St., Syracuse, N. Y., is President of the Board of Trustees of Webster graded schools, Dist. 8, in the town of Salina.

He is also Overseer of the Poor, which position has afforded him ample opportunity for noting the causes of disease, as well as the best means of preventing and curing the same.

He expresses his approval of the use of Peruna as a very effective means of solving a problem of such vital interest to the community, as follows:

"Exposure seems to affect the lungs and kidneys of the poor and I have seen hundreds of these who were brokendown in health from this cause.

"I am pleased to tell you that Peruna has proven a most efficacious remedy in a number of cases where no other medicine was used.

"I consider it a specific for any disorders of the respiratory organs."

SOUND TIMBER.

The Sun was the first paper in the State to announce for Dr. E. S. Crill of Palatka for the next Governor of Florida, and though several papers have "seconded the motion" none is more appreciated than the following from Hon. Albert M. Williamson's Jacksonville Floridian:

"While talking about gubernatorial candidates, both standing and special, we ask again, 'What's the matter with DR. CRILL?'

"We have thought a great deal recently of available 'timber' for this position.

"Dr. Crill has been prominently before the people of Florida in different capacities for more than a quarter of a century. No corrupt or dishonest act stains either his public or his private life. He has been and is still a successful man in business, and those who know him best, with one accord, will always tell you 'HE'S ALL TO THE GOOD!'

"So without any 'tearing the azure robes of night,' and 'setting the stars of glory,' without any fawning and flattering, but just as a plain, blunt man who is not in the habit of 'flying off the handle,' and who can always be depended upon to do the safe, honest and proper thing, don't all speak at once, but tell us, 'What's the matter with Dr. Crill?'

"Our own private opinion is that if he decides to enter the contest the man who can beat him will have to be a good one, and will know that he has been 'running some' when he has 'finished his race.'"

Wallace Stovall of The Tampa Tribune was always possessed of a humorous nature, but of late he has become more so than usual. Listen to his latest:

"Judge Parker's secretary has been arrested on the charge of bigamy. It will be recalled that the Judge's own romance, when he eloped with Miss Democracy, was of such short duration that public opinion never justified proceedings."

Congressman Longworth, better known as the man who married Miss Alice Roosevelt, has a hard fight on his hands for re-election. The labor organizations have nominated a candidate against him and the Democrats have endorsed the nominee. Mrs. Longworth will probably be able to pull her husband through, however.

DRAINING THE EVERGLADES.

We had intended to have nothing to say whatever, more than we have already said, says The Jasper News, about Gov. Broward's drainage amendment which is to be voted upon at the approaching November election. But on second thought we believe that we would be remiss in our duty to the people among whom we have lived so long did we not, at least, tell them what our views on the subject are.

The question to be considered is not Gov. Broward's honesty in the matter; not whether the drainage plan is feasible or practicable; not whether the lands drained would be enhanced in value—but whether the people, the taxpayers of the State, would be benefited thereby.

As to the lands in the Everglades, they are involved in a lawsuit. Our State Legislature granted every acre of them to various railroad companies. The trustees of the internal improvement fund, for the first time in the history of our State, refused to make deeds and the railroad companies went to law to compel them to do so.

It is not wise, it is not good policy, nor is it in accordance with good business methods to spend thousands of dollars of the people's money in improving property which may be lost.

But, again, supposing, for the sake of argument, that there were no question about the title of the State to these lands, even then they should not be expended in draining the Everglades, nor any other swamp. These lands, or every dollar of the proceeds derived from their sale, belongs to the school fund of the State.

It is not wise, it is not business-like, it is not to the interest of the farmers of this country to take money which is provided by law to educate their children and drain a swamp which two-thirds of already belongs to corporations, with a fair prospect of their becoming possessed of the balance of it.

The proceeds of the sale of that land, if put in the school fund, where the law says it shall be placed, would benefit every child of school age in the State. Waste it in digging ditches in the Everglades and the corporations are the gainers and the children are the losers.

NO THIRD TERM.

It would divide and disintegrate the Republican party if President Roosevelt was nominated for a third term, for a majority of that party declared when the Conklin machine tried to nominate General Grant for a third term that to do so was to invite defeat. But laying aside the political results of overriding the unwritten law of the Republic, there is the personal matter of Mr. Roosevelt going back upon his expressed promise to the people not to be a candidate for a third term. It is well to remember just what he gave out to the public on the night of the election in 1904, when he said:

"I am deeply sensible of the honor done me by the American people in thus expressing their confidence in what I have done and have tried to do. I appreciate to the full the solemn responsibility this confidence imposes upon me, and I shall do all that in my power lies not to forfeit it. On the 4th day of March next I shall have served three and one-half years, and this three and one-half years constitutes my first term. The wise custom which limits the President to two terms regards the substance, and not the form, and under no circumstances will I be a candidate for or accept another nomination."

This promise that "under no circumstances" would he be a candidate, was also a promise to the other ambitious men of the Republican party that they could seek the nomination without his being in their way. Cannon, Taft, Fairbanks, Root, Cummins, took the President at his word and are more or less intent and trying to convince the Republican voters that they would make the ideal candidate. It is impossible to believe that the President secretly cherishes the hope of a third term, and it is more impossible to imagine that he would commit such an act of perfidy as to throw his political associates overboard for the sake of his own ambition to accomplish what Washington refused and Grant was denied. A third term is therefore an issue that need not bother us at this time, but it is always well to remember that eternal vigilance on the part of the people is the price of liberty.

Young man, do not take up the study of medicine unless you are morally certain that you are fitted for carving out for yourself a brilliant future in that profession. About 12,500 medical graduates are being turned out by the colleges each year, while there is need of only about 2,500, according to one of our most distinguished practitioners. Better stay at home on the farm, where brain, brawn and energy will always win its own reward. The well-to-do farmer of today is the most independent man on the green footstool.

NOTICE FOR PUBLICATION.

Land Office at Gainesville, Fla.,
September 28, 1906.

Notice is hereby given that in compliance with the provisions of the Act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada, and Washington Territory," as extended to all the public land states by Act of August 4, 1892, John F. Tribble, of Bagdad, county of LaFayette, State of Florida, has this day filed in this office his sworn statement No. 1st for the purchase of the S½ of NW¼ & W½ of SW¼ of Section No. 13 in Township No. 6 S., Range No. 14 E., and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before Register and Receiver at Gainesville, Fla., on Wednesday, the 5th day of December, 1906.

He names as witnesses: W. B. Douglass, Kip Cannon, C. C. Chance, Bert Randall, all of Bell, Florida.

Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 5th day of December, 1906.

The Best Guaranty of Merit Is Open Publicity.

Every bottle of Dr. Pierce's world-famed medicines leaving the great laboratory at Buffalo, N. Y., has printed upon its wrapper all the ingredients entering into its composition. This fact alone places Dr. Pierce's Family Medicines *in a class all by themselves.* They cannot be classed with patent or secret medicines because they are neither. This is why so many unprejudiced physicians prescribe them and recommend them to their patients. They know what they are composed of, and that the ingredients are those endorsed by the most eminent medical authorities.

The further fact that neither Dr. Pierce's Golden Medical Discovery, the great stomach tonic, liver invigorator, heart regulator and blood purifier, nor his "Favorite Prescription" for weak, overworked, broken-down, nervous women, contains any alcohol, also entitles them to a place all by themselves.

Many years ago, Dr. Pierce discovered that chemically pure glycerine, of proper strength, is a better solvent and preservative of the medicinal principles residing in our indigenous, or native, medicinal plants than is alcohol; and, furthermore, that it possesses valuable medicinal properties of its own, being demulcent, nutritive, antiseptic, and a most efficient antiferment.

Neither of the above medicines contains alcohol, or any harmful, habit-forming drug, as will be seen from a glance at the formula printed on each bottle wrapper. They are safe to use and potent to cure.

Not only do physicians prescribe the above, non-secret medicines largely, but the most intelligent people employ them—people who would not think of using the ordinary patent, or secret medicines. Every ingredient entering into the composition of Dr. Pierce's medicines has the strongest kind of an endorsement from leading medical writers of the several schools of practice. No other medicines put up for like purposes has any such *professional* endorsement.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists sell them, and nothing is "just as good." Easy to take as candy.

NATTILE WHIPPED COW.

That Was Charge Against Him, and He Was Sent Up for Three Months.

A colored man by the name of Nattile, whom it is claimed severely beat a cow near Archer, is in jail in this city, having been arraigned in Justice Chamblin's court upon a charge of cruelty to animals, and given a sentence of three months in the "gang."

It is said that Nattile's father appeared as a witness in defense of the son, stating that the defendant couldnot have possibly inflicted the alleged injuries upon the cow, as he (the son) was working with him in the field at the time the alleged assault upon the animal occurred. However, other evidence was submitted which led the court to believe that the man was guilty.

FURNITURE BEING MOVED.

Secretary Kellum Has Shipped Quantity of E. F. S. Furniture.

Secretary J. G. Kellum of the State Board of Control, by instruction from the board, has shipped from East Florida Seminary in this city a quantity of furniture consisting of beds, heaters, etc., which will be used in the Industrial School for Negroes, a State institution located at Tallahassee.

With the removal of this furniture there remains of the old Seminary furnishings but little, one room accommodating it all. Notwithstanding that the elegant new University buildings have been located here, the people of Gainesville regretted to see the furniture of the dear old Seminary removed, which, for nearly half a century, enjoyed the distinction of being one of the leading educational institutions of Florida.

MUCH BUSINESS TRANSACTED

That Is, a Great Deal of Business of Interest to the Taxpayers—Official Proceedings as Taken From the Minute Book of That Body.

Gainesville, Fla., Oct. 1, 1906.—Council convened at 8 p. m., with President Broome in the chair, and Aldermen Bulch, Hodges and Taylor in attendance.

Alderman Taylor moved city attorney draw an ordinance calling an election to bond the city for $9,000 for the purpose of purchasing the Barracks property. Carried.

Alderman Hodges moved that city attorney draw an ordinance for the construction of sidewalks and gutters on the east side of Garden street, between Liberty and Union streets. Carried.

The following resolution was offered by Alderman Hodges, and upon motion of Alderman Taylor passed the council:

"Resolved, That the mayor be and he is hereby directed to require, after November 1, 1906, the police force of the city wear prescribed uniform while on duty; the design of said uniform to be agreed upon by the mayor and the marshal."

Alderman Hodges moved that the chairman of the Light Committee be instructed to investigate the needs and cost of lights on Liberty street, West. Motion carried.

Alderman Taylor moved that the superintendent of the waterworks be instructed to prepare estimates of the cost of extending water main on Alachua avenue from Palmetto avenue east to the Seaboard railroad, and to report to the council at the next meeting, October 8, at 8 p. m. Motion carried.

Alderman Taylor moved that the Fire Committee be authorized to have granolithic floor put in the lower part of fire station, at an expense not to exceed twenty-five cents per square yard for constructing same, plus necessary expense for filling in and taking up the floor. Motion carried.

Alderman Taylor moved that the step-off on the sidewalk at O'Neill's store be referred to the Street Committee, to confer with the property owners for fixing same. Motion carried.

Alderman Hodges moved that the city attorney be instructed to determine where the street line is north side of Block 7, Range 8. Motion carried.

Alderman Taylor moved to adjourn until 7:30 p. m., October 2, 1906. Motion carried.

Danger from the Plague.

There's grave danger from the plague of coughs and colds that are so prevalent, unless you take Dr. King's New Discovery for Consumption, Coughs and Colds. Mrs. Geo. Does Your Heart Beat

Yes. 100,000 times each day. Does it send out good blood or bad blood? You know, for good blood is good health; bad blood, bad health. And you know precisely what to take for bad blood—Ayer's Sarsaparilla. Doctors have endorsed it for 60 years.

One frequent cause of bad blood is a sluggish liver. This produces constipation. Poisonous substances are then absorbed into the blood. Keep the bowels open with Ayer's Pills.

REAL ESTATE TRANSFER.

J. W. English Purchased Flewellen Truck Farm Near Clyatt.

J. W. English, a progressive and successful young trucker of Tacoma, is branching out, so to speak. Mr. English has purchased the famous Flewellen truck farm near Clyatt.

This tract comprises 241 acres, of which sixty are cleared and under cultivation. The tract is one of the most fertile in the county, adapted especially for the raising of diversified crops of vegetables and melons. It proved one of the most prolific producers in that section, and will no doubt continue to do so under the skilful management of the new owner.

Miss Barco Married.

Miss Edna Barco, the daughter of Mr. and Mrs. B. B. Barco of this city, was quietly married Thursday evening, at Bartow, to Mr. Fred N. Fuller, the assistant stamping clerk of the Southeastern Tariff Association. The announcement of the marriage came as a complete surprise to the friends of the young people. They returned to Tampa immediately after the ceremony and are now at home to their friends at their residence on Beach avenue.—Tampa Tribune.

Miss Barco was partially reared in this city, is well known among the young people, and was quite popular. Her numerous friends in this section will learn of her marriage with surprise, but will wish her much happiness.

Don't Be Imposed Upon.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

Personals From Tioga Log Camp.

Tioga, Fla., Oct. 2.—Miss Annie Dudley of Jonesville is visiting Mrs. N. E. Andrews of this place. The latter's brother, Rowe Barber, of McClenny, spent a few days last week with her.

Mrs. Eugene Wordell and children spent the past week with her father, who has recently been bereft of his wife.

Mrs. E. D. North, who has been seriously ill, is again slowly improving.

Miss Allie Robb and Mrs. N. E. Andrews, two esteemed ladies of this vicinity, spent one day in Newberry last week.

Jimmie Griffis, a jolly good fellow of Jonesville, made an "important visit" to acquaintances here last Sunday.

Mr. Carson and Mr. Robb made a business trip to Archer last Friday.

Business is rocking along with a hustle, as usual, the logs are being sawed and hauled away daily, while the turpentine is continually on the move.

A Card.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures la grippe, cough and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. J. W. McCollum & Co.

JOTTINGS FROM JUDSON.

Cotton Crop Fifty Per Cent Short, and Nearly All Gathered.

Judson, Oct. 2.—As it has been quite awhile since our little burg has been heard from in your valuable paper, we will send you a few dots.

There was a quiet wedding here Thursday night, the contracting parties being Mr. W. J. Williams and Miss Julia B. Hogens. They were united in the holy bonds of matrimony by R. S. Tucker, a notary public.

The cotton crop is moving very slowly. It is bringing five to five and one-half cents per pound here, but the farmers are holding it back for better prices. The crop won't be more than one-half as much as usual in this community, and is about three-fourths' picked out.

The Baptist Sunday school convention convened Friday at Pine Grove.

Mathew Beck of Rocky Hammock was here to attend the convention.

Sam Brock of Mayo left Friday for his home, after a week's visit with his brother, S. L. Brock.

The home of Mr. and Mrs. T. C. Bryant of Bell has been brightened by the arrival of a ten-pound boy, who made his arrival on the 30th ult. The Sun joins their many friends throughout the county in extending congratulations.

I will meet Thomas' prices on all school books. A. J. Vidal.

Miss Mamie Wilcox left yesterday for Washington, D. C., where she will enter the Chevet Chase college. The many friends of this justly popular young lady will greatly miss her, but wish her a most pleasant stay in the Capital City.

W. T. Chesnut of Arredondo was in the city yesterday. Mrs. Chesnut and children, who have been residing at Arredondo for the past few months, have returned to their home here, and are again pleasantly located at 703 Alachua avenue, East Gainesville.

Miss Mabelle A. Bauknight, daughter of S. E. Bauknight of Micanopy, who has been in this city for the past few days, left yesterday for Macon, Ga., where she will take a course in stenography and typwriting in the Georgia and Alabama Business College.

Captain A. Paul has returned from his old home, Duluth, Minn., where he has been for the past two months on his annual vacation. Friends will regret to learn, however, that during a portion of his visit he was quite ill, hence was unable to enjoy himself as he had anticipated.

Alderman H. E. Benson and wife have returned from Vermont and other Eastern States, where they have been for the former's health. They spent some time in the Adirondacks and report a most pleasant outing. The many friends of Alderman Benson will be pleased to learn that his health is greatly improved.

It is with pleasure I announce the arrival of Mr. R. O. Eagle. Mr. Eagle is a thorough, practical piano man, having learned his trade in the great factory of Knabe Co., and Chas. Steiff, Baltimore. Mr. Eagle will be associated with me, having charge of the tuning department. Any tuning entrusted to his care will be guaranteed to give perfect satisfaction. A. R. HARPER.

Hon. Frank Clark, who returned home from South Florida last week, where he has been engaged in stenographic legal work for two weeks, is now confined to his bed by sickness, and his many friends will be pained to learn that he has, upon the urgent advise of his physician, been compelled to cancel all engagements for the next several weeks, or at least until his health will permit him to resume work.

PHIFER'S CORNER,

GAINESVILLE, FLA.

Mrs. Ann C. Nixon of LaFayette county was in the city yesterday, having come to make final proof to her homestead.

J. C. B. Thomas of Bell, Deputy Sheriff E. A. Osteen of Willeford, and Rev. L. R. Thomas, Rev. F. W. Polk and W. Hines of Franklin, were among those who arrived in the city from the West End yesterday.

S. R. Houston, for the past few months the efficient drug clerk at the store of W. M. Johnson, has gone to Dade City, where he has accepted a similar position. Mr. Houston is succeeded here by B. V. Coogler of Brooksville.

T. J. Johnson, a progressive and successful farmer of the Newberry section, and one of The Sun's oldest and most valued friends and subscribers, was in the city yesterday. He made this office an agreeable call, renewing his subscription for two years.

The home of Mr. and Mrs. E. C. McMahan, East Gainesville, has been considerably improved in appearance by a liberal application of paint. There has also been other improvements, and now the McMahan home, which was always inviting and cheerful, is more inviting than ever.

Mr. and Mrs. Richard Booth of Newberry are rejoicing over the arrival of a fine boy at their home. The young man tipped the beams at eleven pounds. W. J. Knight states that the mother and baby are getting along nicely, and authorizes The Sun to state that Mr. Booth's friends think he will recover.

Mrs. J. L. Medlin and children are at home again, after an absence from the city of nearly four months. Mrs. Medlin has just returned from an extended trip abroad, visiting many of the principal European points, which she enjoyed very much. During her absence the children spent the time with relatives in South Carolina.

J. C. Vertrees, Jr., a prominent citizen and business man of Palatka, was a visitor to Gainesville yesterday. Strange to say, Mr. Vertrees, being a Palatkan, admits that Gainesville is the "best small city" in the State. He is living in a good town himself, however, and there can be found no more hospitable people in the State than in Palatka.

N. A. Callison, manager of the famous Spring Park Farm, returned yesterday from his old home in Galesburg, Ill., where he has been for the past two weeks recuperating. Friends are glad to see him looking much improved in health. He was accompanied by Mr. and Mrs. W. B. Reynolds and little Miss Reynolds of Abbington, Ill., who expect to remain here for the winter. Mrs. Reynolds is a niece of Mr. Callison. It is to be hoped that they will be well pleased with this section of the country, as this is their first visit South.

An Old Timer.

Jesse R. Emerson, liveryman at Edwards' stables, has now in keeping what might be termed a pioneer in muledom, being no more nor less than "Old Pete," a mule which it is claimed pulled a street car in Gainesville twenty years ago.

It is said that "Old Pete," who was then a mule gay and giddy, was an educated animal. By the number of strokes of the gong by the conductor, he knew what to do and how to do it. For instance, two strokes of the gong meant to stop; three strokes was a signal to go ahead, and when four strokes sounded in rapid succession "Pete" knew that there must be doing in speed—and no whip was needed.

But "Pete" was sharp in other ways. He had gained the faculty of knowing who rode on passes, and whenever a holder of a pass would hail his car he would not only refuse to stop for the passenger, but would get that four-stroke gait on him, and it was indeed a lucky free rider who mounted the car at all if "Pete" happened to see him first.

But the street car is a thing of the past, and the animal passed away into other fields of labor, such as plowing and drafting, pulling log carts, etc. "Pete" is yet in the prime of usefulness, notwithstanding that he has long passed the legal voting age, and he is said to be good for many more years of service. The animal is owned by H. L. Rosenberger of Kirkwood.

Prof. Jules Eichelberger desires to let the public and his friends in particular know that he has finally severed his connection with Mr. A. R. Harper as tuner and will tune on his own account. He respectfully refers to Messrs. Lodden & Estes, Savannah, Ga., and Lodden-Campbell-Smith Co., Jacksonville, Fla.

THOMAS' ATTORNEYS MAKE A NEW TAC

Have Applied for Writ of Habe Corpus Before Judge Wills.

THOMAS IS NOW IN PRISO

Notwithstanding the Various Witnesses Examined by the State in Favor the Defense, Thomas Not Permi to Give Bail.

Not being content with the rulin Justice Colman in committing W liam Thomas, the slayer of Maxie ffield at Bell on the 24th inst., to without bail, after the introductio nearly a score of State witnesses w they felt showed plainly that Th was justifiable in taking the lif Scofield, the attorneys for the defe Judge Syd L. Carter, Evans Haile B. A. Thrasher, have applied to Ju J. T. Wills of the Eighth Judicial C cuit for a writ of habeas copus to co pel the release of the defendant, wh is now a prisoner, upon a reasonab bond.

The story of this homicide is w known, as it has been fully covered Thomas was first arrested an was arraigned before Justice Ba ron at Bell, when he was release after the hearing of testimony of se eral witnesses. He was re-arreste and brought to Gainesville, the w rant having been made out returna to Justice Colman, and on last Tue day, the date of the trial, the city w thronged with witnesses from t West End who had been summoned by the State.

Thomas was remanded to jail with out bail to await the action of the grand jury at the fall term of the circuit court for Alachua county, and his attorneys have taken this means in an endeavor to have him released over the jurisdiction of the justice court on a reasonable bond.

Meeting School Board.

The regular monthly meeting of the Board of Public Instruction of Alachua county was held in this city Tuesday, at which the regular routine of business was carried out. Many of the schools having now opened for the fall term, there was not such a volume of business before the board, in the form of objections and other things.
